For use with Longline Observer Forms
Revised SPC/FFA Dec. 2007

Longline Debriefing Form

Giving direct feedback to observers

REVISED DEC. 2007

TRIP DETAILS

OBSERVER NAME	DEPARTURE (SHIP DATE AND TIME) D D	M M	Y Y	h h	m m	DEPARTURE PORT
PLACEMENT PROG. OBSERVER TRIP ID NUMBER	RETURN (SHIP DATE AND TIME) D D	M M	Y Y	h h	m m	RETURN PORT

DEBRIEFING DETAILS

NAME OF DEBRIEFER	START DATE OF DEBRIEFING D D	M M	Y Y	h h	m m	NATIONAL PROG. OBSERVER TRIP ID NUMBER (if different)

Before debriefing starts

- The debriefer should ensure that the correct header details have been filled in on every form. If this has not been done all of the forms should be handed back to the observer and they should then be asked to correct the forms so that that these details are correct and complete on every form.
- The debriefer should ask the observer to check that the start of set date and times are consistent across all forms. An optional worksheet is provided on the next page to help with this work.

This form is optional, it may help if there are problems with the observer's start of set times. Write out the start of set date and time for the LL-2/3 and then compare if necessary.

Set Start Date and Time

LL - 2/3	LL-4	LL-5	GEN-1	GEN-2	GEN-6

All Forms

Insert year if not 2007 version

1. The '*year of revision'* marked on the submitted LL-1 form is 2007 or: _____

2. The '*year of revision'* marked on the submitted LL-2/3 forms is 2007 or: _____

3. The '*year of revision'* marked on the submitted LL-4 forms is 2007 or: _____

4. The '*year of revision'* marked on the submitted LL-5 forms is 2007 or: _____

5. The '*year of revision'* marked on the submitted GEN-1 forms is 2007 or**:** _____

6. The '*year of revision'* marked on the submitted GEN-2 forms is 2007 or**:** _____

7. The '*year of revision'* marked on the submitted GEN-3 forms is 2007 or: _____

8. The '*year of revision'* marked on the submitted GEN-6 forms is 2007 or: _____

HEADER DETAILS

The header details data has been checked and confirmed through questioning.
(Please check the trip details on the LL-1 form before continuing on to check the header details for all forms. Also, note there will be additional header detail information verified when the LL-4 form is checked.)

9. The '*observer name'* has been completely and correctly filled in.

   Cc Inc InR Er ErR

10. The '*observer trip ID number'* has been completely and correctly filled in.

    Cc Inc InR Er ErR

11. The '*vessel name'* has been completely and correctly filled in.

    Cc Inc InR Er ErR

12. The *'page numbers'* have been completely and correctly filled in.

    C c Inc InR Er ErR

LL- 1 FORM: GENERAL INFORMATION FORM

DATA SUBMITTED

All the LL-1 forms have been checked and the debriefer has confirmed that there are no other forms to be submitted.

13. A '*LL-1 form'* has been submitted.

Cc Inc InR X

Explain any errors and provide some helpful advice.
Fill it in! Revise! Well Done!

TRIP DETAILS:

The departure and return port and time data has been checked, confirmed through questioning and cross checked with the trip report "2.0 - General Vessel Information" of the trip report.

14. The '*observer name'* has been completely and correctly filled in.

Cc Inc InR Er ErR X

15. The '*observer trip ID number'* have been and completely and correctly filled in.

Cc Inc InR Er ErR X

16. The '*departure (ship's date and time) and port'* have been and completely and correctly filled in.

Cc Inc InR Er ErR X

17. The '*return (ship's date and time) and port'* 'have been completely and correctly filled in.

Cc Inc InR Er ErR X

Explain any errors and provide some helpful advice.	Random General Knowledge Test
Fill it in! Revise! Well Done!	√ or X

VESSEL

The vessel data has been checked, confirmed through questioning and cross-checked with the section "4.1 - General Vessel Information" of the trip report.

18. The 'names of the: *vessel; owner; captain; and fishing master'* have been completely and correctly filled in.

    Cc Inc InR Er ErR X

19. The '*country reg. no.'* have been completely and correctly filled in.

    Cc Inc InR Er ErR X

20. The '*flag' have* been completely and correctly filled in.

    Cc Inc InR Er ErR X

21. The '*IRCS' have* been completely and correctly filled in.

    Cc Inc InR Er ErR X

22. The '*fishing permit or licence number(s)'* have been completely and correctly filled in.

    Cc Inc InR Er ErR X

Explain any errors and provide some helpful advice.	Random General Knowledge Test
Fill it in! Revise! Well Done!	√ or X

CREW NATIONALITY

The crew nationality data has been checked, confirmed through questioning and cross-checked with section "4.2 Crew Nationality" of the trip report.

23. The '*nationality of the captain and fishing master'* have been completely and correctly filled in.

    Cc Inc InR Er ErR X

24. The '*other crew'* data fields have been completely and correctly filled in.

    Cc Inc InR Er ErR X

25. The '*how many'* data fields have been completely and correctly filled in.

    Cc Inc InR Er ErR X

Explain any errors and provide some helpful advice.	Random General Knowledge Test
Fill it in! Revise! Well Done!	√ or X

ELECTRONICS

The electronics data has been checked, confirmed through questioning and cross-checked with section "4.3 Electronics" of the trip report.

26. All of the *'Y / N'* data fields have been completely and correctly circled. (note: excludes the 'VMS seals intact' Y/N).

    Cc Inc InR Er ErR X

27. The '*usage*' data field has been completely and correctly filled in.

    Cc Inc InR Er ErR X

28. The *'new'* data fields have been completely and correctly filled in.

    Cc Inc InR Er ErR X

29. The '*make'* data fields have been completely and correctly filled in.

    Cc Inc InR Er ErR X

30. The '*model'* data fields have been completely and correctly filled in.

    Cc Inc InR Er ErR X

31. The '*how many'* data field has been completely and correctly filled in.

    Cc Inc InR Er ErR X

32. The '*VMS – system'* data fields have been completely and correctly filled in.

    Cc Inc InR Er ErR X

33. The '*VMS - ALC make and model'* data fields have been completely and correctly filled in.

    Cc Inc InR Er ErR X

34. The '*VMS seals intact (Yes or No) Y/N'* data fields have been completely and correctly circled.

    Cc Inc InR Er ErR X

35. The *'communication services' data* fields have been completely and correctly circled.

Cc Inc InR Er ErR X

36. The '*information services'* data fields have been completely and correctly circled.

Cc Inc InR Er ErR X

37. The '*comments*' data fields have been completely and correctly filled in.

Cc Inc InR Er ErR X

REFRIGERATION METHOD

The refrigeration data has been checked, confirmed through questioning and cross-checked with section "4.8 - Refrigeration method" of the trip report.

55. The '*refrigeration method*' Y/N data fields have been completely and correctly circled.

Cc Inc InR Er ErR X

Explain any errors and provide some helpful advice.	Random General Knowledge Test
Fill it in! Revise! Well Done!	√ or X

OBSERVATIONS / COMMENTS, OTHER GEAR, UNUSUAL USE OF GEAR

The observations / comments / other gear / unusual use of gear data has been checked, confirmed through questioning and cross-checked with section "4.9 – Observations / Other gear / Unusual Use of Gear" in the trip report.

56. The notes on '*observations / comments / other gear / unusual use of gear*' have been completely and correctly filled in.

Cc Inc InR Er ErR X

Explain any errors and provide some helpful advice.	Random General Knowledge Test
Fill it in! Revise! Well Done!	√ or X

LL-2/3 FORM: SET AND HAUL INFORMATION

DATA SUBMITTED

All of the LL-2/3 forms have been checked and the debriefer has confirmed that there are no other forms to be submitted.

57. A '*complete set of LL-2/3'* forms have been submitted.

Cc Inc InR X

Explain any errors and provide some helpful advice.
Fill it in! Revise! Well Done!

START OF SET

The start of set data has been checked, confirmed through questioning and cross-checked with section "5.3 – Setting and Hauling information" of the trip report.

58. The start of set – '*ship's date and time'* has been completely and correctly filled in.

Cc Inc InR Er ErR X

59. The start of set ship's time is *aligned* with the start set time on the set log for every observed set.

Cc Inc InR Er ErR X

60. The 'start of set – *UTC date and time'* has been completely and correctly filled in.

Cc Inc InR Er ErR X

Explain any errors and provide some helpful advice.	Random General Knowledge Test
Fill it in! Revise! Well Done!	√ or X

Longline Set Specification – HOOKS / BASKET

The hooks / basket data has been checked, confirmed through questioning and cross-checked with section "5.3 – Setting and Hauling information" of the trip report.

61. The '*no. of hooks per basket'* data field has been completely and correctly filled in.

Cc Inc InR Er ErR X

62. The '*total number of baskets*' data field has been completely and correctly filled in.

Cc Inc InR Er ErR X

63. The '*total number of hooks'* data field has been completely and correctly filled in.

Cc Inc InR Er ErR X

Explain any errors and provide some helpful advice.	Random General Knowledge Test
Fill it in! Revise! Well Done!	√ or X

Longline Set Specification - LINE LENGTHS

The line length data has been checked, confirmed through questioning, and cross-checked with section '4.4.2 Branchlines and 4.4.3 Floatlines' of the trip report.

64. The '*length of the floatline'* data field was completely and correctly filled in.

Cc Inc InR Er ErR X

65. The '*length of the branchline'* data field was completely and correctly filled in.

Cc Inc InR Er ErR X

Explain any errors and provide some helpful advice.	Random General Knowledge Test
Fill it in! Revise! Well Done!	√ or X

Longline Set Specification - SETTING INTERVALS

The setting interval data has been checked, confirmed through questioning and cross-checked with section "5.4 Target fishing depths" of the trip report.

66. The '*line setting speed'* data field was completely and correctly filled in.

Cc Inc InR Er ErR X

67. The '*line setting units'* were completely and correctly circled.

Cc Inc InR Er ErR X

68. The *'branchline set interval*' data field was completely and correctly filled in.

Cc Inc InR Er ErR X

69. The "*between branchlines*" data field was completely and correctly filled in.

Cc Inc InR Er ErR X

Explain any errors and provide some helpful advice.	Random General Knowledge Test
Fill it in! Revise! Well Done!	√ or X

Longline Set Specification - VESSEL SPEED

The vessel speed data has been checked, confirmed through questioning and cross-checked with section "5.4 Target fishing depths" of the trip report.

70. The '*vessel speed'* data field was completely and correctly filled in.

Cc Inc InR Er ErR X

Explain any errors and provide some helpful advice.	Random General Knowledge Test
Fill it in! Revise! Well Done!	√ or X

Longline Set Specification - SHARK LINES

The vessel speed data fields has been checked, confirmed through questioning and cross-checked with section "4.4.2 Branchlines" of the trip report.

71. The "shark line – *number*' data field was completely and correctly filled in.

Cc Inc InR Er ErR X

72. The "shark line – *length*' data field was completely and correctly filled in.

Cc Inc InR Er ErR X

Explain any errors and provide some helpful advice.	Random General Knowledge Test
Fill it in! Revise! Well Done!	√ or X

Longline Set Specification – TDRs

The TDR data has been checked and confirmed through questioning and cross-checked with section "11.5 Your headings" of the trip report.

73. The '*TDR*' Y/N data field was completely and correctly circled.

Cc Inc InR Er ErR X

Explain any errors and provide some helpful advice.	Random General Knowledge Test
Fill it in! Revise! Well Done!	√ or X

TARGET SPECIES

The target species data has been checked, confirmed through questioning and cross-checked with section "7.1 Target catch details" of the trip report.

74. The '*target species'* data field has been completely and correctly filled in with an X.

Cc Inc InR Er ErR X

Explain any errors and provide some helpful advice.	Random General Knowledge Test
Fill it in! Revise! Well Done!	√ or X

UNUSUAL SET DETAILS

The unusual set details data has been checked, confirmed through questioning and cross-checked with section "5.8 Unusual set details" of the trip report.

75. The '*unusual set detail'* data field was completely and correctly filled in.

Cc Inc InR Er ErR X

Explain any errors and provide some helpful advice.	Random General Knowledge Test
Fill it in! Revise! Well Done!	√ or X

BAIT USED

The bait used data has been checked and confirmed through questioning and cross-checked with section "5.5 Bait/ baiting sequence" of the trip report.

76. The '*species'* data field was completely and correctly filled in.

Cc Inc InR Er ErR X

77. The '*kilogramme (kg)'* data field was completely and correctly filled in.

Cc Inc InR Er ErR X

78. The '*hook number'* data field was completely and correctly filled in.

Cc Inc InR Er ErR X

79. The '*lightstick*' data field was completely and correctly filled in.

Cc Inc InR Er ErR X

Explain any errors and provide some helpful advice.	Random General Knowledge Test
Fill it in! Revise! Well Done!	√ or X

SET LOG

The set log data has been checked and confirmed through questioning.

80. The '*start set* - time and position' data field was completely and correctly filled in.

Cc Inc InR Er ErR X

81. The '*observed directly'* question was completely and correctly circled.

Cc Inc InR Er ErR X

82. If N was circled then an 'observed *directly comment'* has been recorded.

Cc Inc InR Er ErR X

83. The '*end set* – time and position' position data field was completely and correctly filled in.

Cc Inc InR Er ErR X

Explain any errors and provide some helpful advice.	Random General Knowledge Test
Fill it in! Revise! Well Done!	√ or X

HAUL LOG

The haul log data has been checked, and confirmed through questioning.

84. The '*start haul – time and position*' data field was completely and correctly filled in.

Cc Inc InR Er ErR X

85. The '*end haul – time and position'* data field was completely and correctly filled in.

Cc Inc InR Er ErR X

86. The *'intermittent (or hourly) haul - time and position'* data fields have been completely and correctly filled in.

Cc Inc InR Er ErR X

Explain any errors and provide some helpful advice.	Random General Knowledge Test
Fill it in! Revise! Well Done!	√ or X

COMMENTS

The comments have been checked, and confirmed through questioning.

87. The '*comments'* data fields are completely and correctly filled in.

Cc Inc InR Er ErR X

88. The 'comment *ship's times'* data fields has been filled in appropriately.

Cc Inc InR Er ErR X

DAY'S SUMMARY

All of the day's summary data fields have been checked, cross-checked with other data forms (see list below) confirmed through questioning and cross-checked with section 9.0 Vessel Trip Monitoring of the trip report. For question 89 the data must be cross-checked with the GEN-3 forms. For question 90 the data must be cross-checked with the diary.

** The '*total basket observed* during haul' data field will be assessed by the debriefer in the LL-4 form section**.

89. The '*GEN-3* question' data field was completely and correctly circled.

Cc Inc InR Er ErR X

90. The '*diary page'* data field was completely and correctly filled in.

Cc Inc InR Er ErR X

Explain any errors and provide some helpful advice.	Random General Knowledge Test
Fill it in! Revise! Well Done!	√ or X

LL-4 FORM: CATCH MONITORING

DATA SUBMITTED

All of the LL-4 forms have been checked and the debriefer has confirmed that there are no other forms to be submitted.

91. A '*complete set*' of LL-4 forms has been submitted.

Cc Inc InR X .

Explain any errors and provide some helpful advice.

Fill it in! Revise! Well Done!

HEADER DETAILS

The header details data have been checked and confirmed through questioning and cross-checked with the LL-2/3 forms (reminder: the main header details were checked at the start of debriefing).

92. The '*set number*' data field was completely and correctly filled in.

Cc Inc InR Er ErR X

93. The '*measuring instrument*' data field was completely and correctly filled in.

Cc Inc InR Er ErR X

94. The ship's '*start of set date and time*' data fields have been completely and correctly filled in.

Cc Inc InR Er ErR X

95. The ship's '*start of haul date*' data fields were completely and correctly filled in.

Cc Inc InR Er ErR X

Explain any errors and provide some helpful advice.

Fill it in! Revise! Well Done!

Catch details - HOOK NUMBERS

The hook number data has been checked and confirmed through questioning.

97. The '*hook numbers*' data fields were completely and correctly filled in.

Cc Inc InR Er ErR X

Explain any errors and provide some helpful advice.	Random General Knowledge Test
Fill it in! Revise! Well Done!	√ or X

Catch details - SPECIES CODE

The species code data has been checked, confirmed through questioning and cross-checked with section "7.0 Catch Details" of the trip report.

98. The observer had their "Marine species identification manual for horizontal longline fishermen" with them onboard.

Y N

99. '*All species*' that were hooked on a monitored hook have been fully recorded with a species code.

Cc Inc InR Er ErR X

100. *'All species of special interest'* that was hooked on a monitored hook has been fully recorded.

Cc Inc InR Er ErR X

101. The '*species code'* data field was completely and correctly filled in.

Cc Inc InR Er ErR X

Explain any errors and provide some helpful advice.	Random General Knowledge Test
Fill it in! Revise! Well Done!	√ or X

102. The debriefer has confirmed through questioning that the observer has correctly identified all species of tuna hooked during the trip.

Cc Inc InR Er ErR X

103. Note here the species codes of any *tuna* which the observer has recorded, but which the debriefer considers incorrect, and the identification remains uncertain even after debriefing. Also note any group codes that were used.

TUNA: ☐ ☐ ☐ ☐

104. The debriefer has confirmed through questioning that the observer has correctly identified all species of billfish hooked during the trip.

Cc Inc InR Er ErR X

105. Note here the species codes of any *billfish* which the observer has recorded, but which the debriefer considers incorrect, and the identification remains uncertain even after debriefing. Also note any group codes that were used.

BILLFISH: ☐ ☐ ☐ ☐ ☐

106. The debriefer has confirmed through questioning that the observer has correctly identified all species of sharks hooked during the trip. Also note any group codes that were used.

Cc Inc InR Er ErR X

107. Note here the species codes of any *sharks* which the observer has recorded, but which the debriefer considers incorrect, and the identification remains uncertain even after debriefing. Also note any group codes that were used.

SHARKS: [ ] [ ] [ ] [ ] [ ]

108. The debriefer has confirmed through questioning that the observer has correctly identified all species of *bycatch* hooked during the trip.

Cc Inc InR Er ErR X

109. Note here the species codes of any *bycatch* which the observer has recorded, but which the debriefer considers incorrect, and the identification remains uncertain even after debriefing. Also note any group codes that were used.

BYCATCH: [ ] [ ] [ ] [ ] [ ]

110. The debriefer has confirmed through questioning that the observer has correctly identified all species of species of special interest hooked during the trip.

Cc Inc InR Er ErR X

111. Note here the species codes of any *species of special interest* which the observer has recorded, but which the debriefer considers incorrect, and the identification remains uncertain even after debriefing. Also note any group codes that were used.

SPECIES OF SPECIAL INTERST: [ ] [ ] [ ] [ ] [ ]

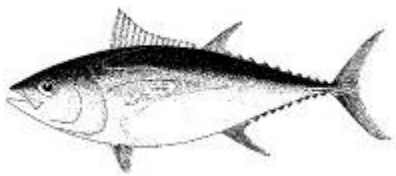
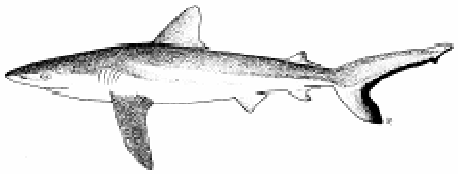
Catch details – Length – MEASUREMENTS

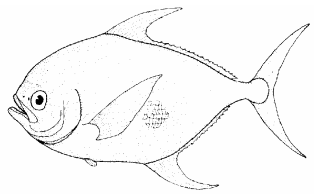
The length – measurements data has been checked, and confirmed through questioning.

116. For every *'UF'* length measurement recorded the observer has done an 'upper jaw (or snout) to the fork in the tail' measurement.
If no UF length measurement was recorded, the observer can demonstrate the correct UF length measurement.

Cc Er ErR X

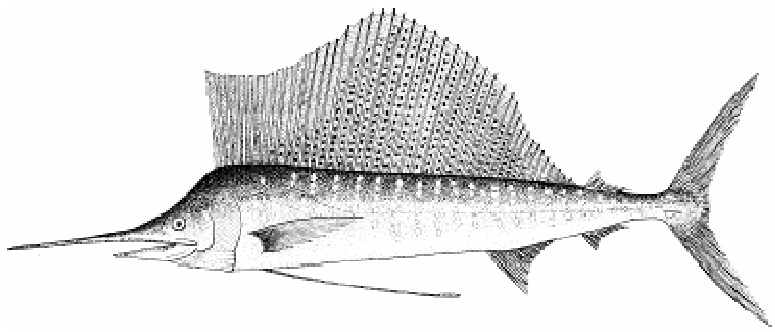






117. For every '*LF*' length measurement recorded the observer has done a 'lower jaw to the fork in the tail' measurement. If no LF length measurement was recorded the observer can demonstrate the correct LF length measurement.

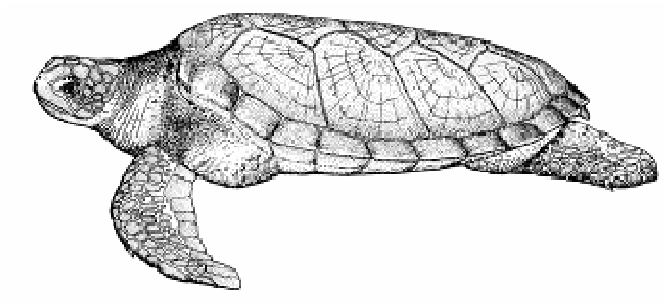
Cc Er ErR X



—

118. For every '*CL*' length code recorded the observer has done a 'straight carapace' measurement. If no CL length measurement was recorded the observer can demonstrate the correct CL length measurement.

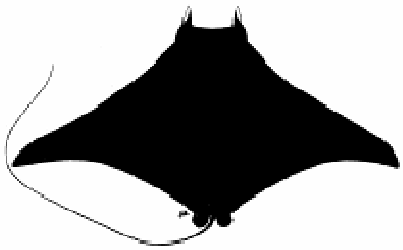
Cc **Er** **ErR** **X**



—

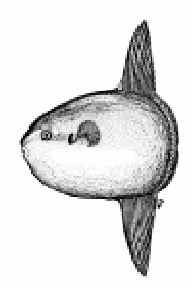
119. For every '*TW*' length code recorded the observer has done a 'total width (tips of wings – rays)' measurement. If no TW length measurement was recorded the observer can demonstrate the correct TW length measurement.

Cc **Er** **ErR** **X**



120. For every '*TL*' length code recorded the observer has done a 'total length — to end of tail (fish with no fork in their tail)' measurement. If no TL length measurement was recorded the observer can demonstrate the correct TL length measurement.

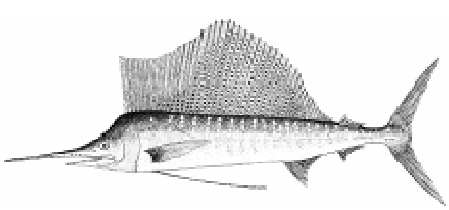
Cc **Er** **ErR** **X**

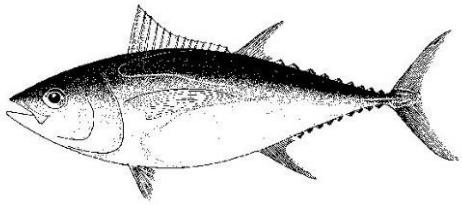


---

121. For every '*PF*' length code recorded — the observer has measured from the front of the pectoral fin to the fork in the tail. If no PF length measurement code was recorded the observer can demonstrate the correct PF length measurement code.

Cc **Er** **ErR** **X**

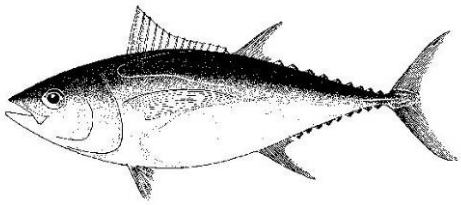


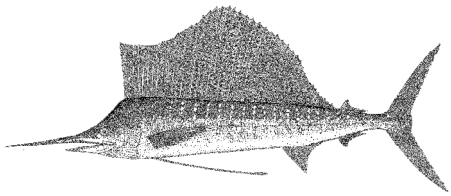


---

122. For every '*PS*' length code recorded — the observer has measured from the front of the pectoral fin to the second dorsal fin. If no PS length measurement was recorded the observer can demonstrate the correct PS length measurement.

Cc **Er** **ErR** **X**





---

123. For every '*US*' length code recorded — the observer has measured from the upper jaw to the front of the second dorsal fin. If no US length measurement was recorded the observer can demonstrate the correct US length measurement.

Cc **Er** **ErR** **X**
