## Specifications of Goods

**RFP 22/3392: Supply and delivery of a water tanker truck and its accessories to Funafuti, Tuvalu**

**Project Title: Global Climate Change Alliance Plus – Scaling Up Pacific Adaptation (GCCA+SUPA) Project**

**PART A: BACKGROUND****1. GENERAL OVERVIEW****1.1. Context**

In Tuvalu, the primary water source is from rainwater catchment systems, while in the capital, Funafuti, desalination systems are also important. Groundwater is classified non-potable in most islands due to high salinity levels and pollution mostly from improper sanitation systems and livestock waste. 60% of the population reside in the capital island Funafuti. Tuvalu is highly vulnerable to climate variations and a two –week period without rain would see a depleted water supply especially for household's dependent on rainwater catchment systems. Improving water security, including supply and access is a high priority for the Government of Tuvalu.

Under Output 3 of the Global Climate Change Alliance (GCCA+) Scaling Up Pacific Adaptation (SUPA), the government of Tuvalu has selected water as their focus sector. The overall objective is to strengthen water security in Funafuti Island communities through the improvement of water catchment and access to water. The specific objective is improved supply, storage and distribution of potable water to communities and schools in Funafuti Island. The four key results areas are: (1) Purchase of portable, solar powered, desalination plant; (2) Refurbish and maintain water systems in the SDA High School and Nauti Primary School in Funafuti; (3) Procurement of a 10,000-litre drinking water tanker truck; and (4) National coordination of the project activities.

The project will scale up previous efforts on water supply and access in Funafuti and lessons learnt from other water security projects relating to desalination units, water systems maintenance and water supply implemented in Funafuti and the outer islands of Tuvalu will be applied in the GCCA+SUPA project.

Water supply and delivery is especially critical in times of drought. During dry periods, freshwater supplied from rainwater harvesting systems at the households are depleted and the need for back up water supply rises tremendously. Back up water supply comes from desalination plants and large communal water cisterns. During water shortages, water from the desalination plants and water cisterns are delivered to the households and communities in water trucks.

Tuvalu presently has two 10,000 litre drinking water tanker truck operating in Funafuti under the Public Works Department delivery water to the people on the island. The services of the water truck include the transportation of water from the desalination plants to the water cisterns, and from the cisterns to households, schools, the hospital, government offices, community buildings etc. The existing water trucks are insufficient to meet the freshwater delivery demand on the island, particularly in times of drought.

The Government of Tuvalu has requested for the purchase of a 10,000-litre drinking water tanker (truck) to scale up and improve the essential delivery of water to communities. The water tanker truck will be operated and maintained by the Public Works Department in Funafuti.

## ANNEX 1: SPC General Terms and Conditions of Contract

### LEGAL STATUS OF THE PARTIES

- 1.1 SPC and the Contractor will be referred to as a “Party” individually or the “Parties” collectively.
- 1.2 Pursuant to the Canberra Agreement, the Pacific Community has full juridical personality and enjoys such privileges and immunities as are necessary for the independent fulfilment of its purposes.
- 1.3 The Contractor has the legal status of an independent Contractor vis-à-vis SPC. The Contractor’s personnel and sub-contractors are not to be considered in any respect employees or agents of SPC.

### SOURCE OF INSTRUCTIONS

- 2.1 The Contractor will only accept instructions from SPC in the performance of the Contract. The Contractor will refrain from any action that may adversely affect SPC and will fulfil its commitments with the fullest regard to the interests of SPC. Should any authority external to SPC seek to impose any instructions concerning or restrictions on the Contractor’s performance under the Contract, the Contractor will promptly notify SPC and provide all reasonable assistance required by SPC.

### CONTRACTOR’S RESPONSIBILITY FOR EMPLOYEES

- 3.1 The Contractor will be responsible for the professional and technical competence of its employees and will select, for work under the Contract, reliable individuals who will perform effectively in the implementation of the Contract, respect the local laws and customs, and conform to a high standard of moral and ethical conduct.
- 3.2 The Contractor shall not discriminate against any person because of race, gender or gender identity, sexual orientation, impairment or disability, religious or political beliefs, age, marital or relationship status, pregnancy, breastfeeding or other family responsibilities.

### SPECIFIED PERSONNEL

- 4.1 The Contractor must ensure that the services are performed in accordance with the Contract. Where personnel have been specified, they must provide those services. SPC may remove any personnel (including Specified Personnel) from work in respect of the Contract. If it does so, or if Specified Personnel are unable or unwilling to perform the Contract, the Contractor will provide replacement personnel (acceptable to SPC) of suitable ability and qualifications at no additional cost and at the earliest opportunity.

### ASSIGNMENT

- 5.1 The Contractor may not assign, transfer, pledge or make other disposition of the Contract or any part thereof, or any of the Contractor’s rights, claims or obligations under the Contract except with the prior written consent of SPC.

### SUB-CONTRACTING

- 6.1 No subcontracting will be permitted under the Contract unless it is proposed in the initial submission or is agreed to by SPC in writing. In any event, the total responsibility for the Contract remains with the Contractor. The Contractor shall be responsible for ensuring that all subcontracts shall be fully consistent with the Contract and shall not in any way prejudice the implementation of any of its provisions.
- 6.2 Prior to employing individuals or engaging subcontractors to perform services under the Contract, the Contractor agrees, at its own expense, to perform due diligence necessary to ensure compliance with the terms of the Contract.

### PURCHASE OF GOODS

- 7.1 To the extent that the Contract involves any purchase of goods, and unless specifically stated in the Contract, the following terms and conditions apply to any purchases of goods:

#### Delivery of the goods

- 7.2 The Contractor shall hand over or make available the goods, and SPC shall receive the goods, at the place for the delivery of the goods and within the time for delivery of the goods specified in the Contract.
- 7.3 The Contractor shall provide to SPC such shipment documentation (including, bills of lading, airway bills, and commercial invoices) as are specified in the Contract or otherwise, as are customarily utilised in the trade.
- 7.4 Unless otherwise specified in the Contract, (including, but not limited to, in any “INCOTERM” or similar trade term), the entire risk of loss, damage to, or destruction of the goods shall be borne exclusively by the Contractor until physical delivery of the goods to SPC in accordance with the terms of the Contract. Delivery of the goods shall not be deemed in itself as constituting acceptance of the goods by SPC.

**Packaging of the goods**

7.5 The Contractor shall package the goods for delivery in accordance with the highest standards of packaging for the type and quantities and modes of transport of the goods. The goods shall be packed and marked in a proper manner in accordance with the instructions stipulated in the Contract or, otherwise, as customarily done in the trade, and in accordance with any requirements imposed by applicable law or by the transporters and manufacturer of the goods. The packing, in particular, shall mark the Contract or Purchase Order number and any other identification information provided by SPC as well as such other information as is necessary for the correct handling and safe delivery of the goods. Unless otherwise specified in the Contract, the Contractor shall have no right to any return of the packing material

### Transportation and freight

- 7.6 Unless otherwise specified in the Contract (including, but not limited to, in any "INCOTERM" or similar trade term), The Contractor shall be solely liable for making all transport arrangements and for payment of freight and insurance costs for the shipment and delivery of the goods in accordance with the requirements of the Contract. The Contractor shall ensure that SPC receives all necessary transport documents in a timely manner so as to enable SPC to take delivery of the goods in accordance with the requirements of the Contract.

### Warranties

- 7.7 In addition to and without limiting any other warranties, remedies or rights of SPC stated in or arising under the Contract, the Contractor warrants and represents that:

  - b) If the Contractor is not the original manufacturer of the goods, the Contractor shall provide SPC with the benefit of all manufacturers' warranties in addition to any other warranties required to be provided under the Contract;
  - c) The goods are of the quality, quantity and description required by the Contract, including when subjected to conditions prevailing in the place of final destination;
  - d) The goods are new and unused;
  - e) All warranties, even after the end of the Contract, will remain fully valid following any delivery of the goods and for a period of not less than one (1) year following acceptance of the goods by SPC in accordance with the Contract;
  - f) During any period in which the Contractor's warranties are effective, upon notice by SPC that the goods do not conform to the requirements of the Contract, the Contractor shall promptly and at its own expense correct such non-conformities or, in case of its inability to do so, replace the defective goods with goods of the same or better quality or, at its own cost, remove the defective goods and fully reimburse SPC for the purchase price paid for the defective goods; and,
  - g) The Contractor shall remain responsive to the needs of SPC for any services that may be required in connection with any of the Contractor's warranties under the Contract.

### Acceptance of the goods

- 7.8 Under no circumstances shall SPC be required to accept any goods that do not conform to the specifications or requirements of the Contract. SPC may condition its acceptance of the goods upon the successful completion of acceptance tests as may be specified in the Contract or otherwise agreed in writing by the Parties. In no case shall SPC be obligated to accept any goods unless and until SPC has had a reasonable opportunity to inspect the goods following delivery. If the Contract specifies that SPC shall provide a written acceptance of the goods, the goods shall not be deemed accepted unless and until SPC in fact provides such written acceptance. In no case shall payment by SPC constitute acceptance of the goods.

### Rejection of the goods

- 7.9 Notwithstanding any other rights of, or remedies available to SPC under the Contract, in case any of the goods are defective or otherwise do not conform to the specifications or other requirements of the Contract, SPC, at its sole option, may reject or refuse to accept the goods, and within thirty (30) days following receipt of notice from SPC of such rejection or refusal to accept the goods, the Contractor shall, in sole option of SPC:
- a) Provide a full refund upon return of the goods, or a partial refund upon a return of a portion of the goods, by SPC; or,
  - b) Repair the goods in a manner that would enable the goods to conform to the specifications or other requirements of the Contract; or,
  - c) Replace the goods with goods of equal or better quality; and,
  - d) Pay all costs relating to the repair or return of the defective goods as well as the costs relating to the storage of any such defective goods and for the delivery of any replacement goods to SPC.

### Title to the goods

- 7.10 Unless otherwise expressly provided in the Contract, title in and to the goods shall pass from the Contractor to SPC upon delivery of the goods and their acceptance by SPC in accordance with the requirements of the Contract.

## PROVISION OF SERVICES

- 8.1 To the extent that the Contract involves any provision of services, whether in whole or in part, and unless specifically stated in the Contract, the following terms and conditions shall apply to any provision of services:

### Examination and acceptance

- 8.2 SPC reserves the right to assess the services provided under the Contract, at any time prior to the expiry of the Contract. In the event that the services are not performed in accordance with the terms of reference and/or the provisions of the Contract, and at no additional cost, the Contractor shall make such adjustments as SPC may request in writing to provide the services in accordance with the terms of the Contract, so as not to unduly delay delivery.

### Delay and defaults

- 8.3 If there should be any delay in the performance of the Contract or any part thereof, the Contractor shall notify SPC in writing giving the cause.
- 8.4 If the Contractor is unable to obtain any services necessary for the performance of the Contract from its normal sources, it shall remain liable for any delays when equivalent services can be obtained from other sources in good time.
- 8.5 In any event, if the Contractor fails to complete the services required within the time specified in the Contract, or within any extension that may be granted, SPC may, without prejudice to any further rights it may have under the Contract:
- a) Suspend or cancel the right of the Contractor to proceed further with any services – or part thereof – in which there has been a delay;
  - b) Obtain elsewhere upon such terms and conditions as may be deemed appropriate replacement services similar to those which the Contractor failed to provide;

- c) Make a corresponding adjustment to the consideration payable to the Contractor; provided, however, that the Contractor shall continue performance of the Contract to the extent not suspended or cancelled under the provisions of this paragraph.
- 8.6 The Contractor shall be liable for any excess costs or damages caused to SPC by a failure or delay on the part of the Contractor in the performance of its obligations under the Contract, except where such failure or delay is due to:
  - a) causes which are attributable to SPC; or,
  - b) Force Majeure.
- 8.7 SPC shall determine the effects of any delay or default particularly in regard to an adjustment of the consideration due to the Contractor and to excess costs or damages caused to SPC and its findings shall be binding.
- 8.8 If the Contractor doesn't cure the default or delay for providing the services within a reasonable timeframe, SPC may terminate the Contract for cause, according to article 29 of these General Terms and Conditions.

## EXECUTION OF WORKS

- 9.1 To the extent that the Contract involves any execution of works, whether in whole or in part, and unless specifically stated in the Contract, the following terms and conditions shall apply to any execution of works:

### Obligation to Perform in Accordance with the Contract

- 9.2 The Contractor shall execute and complete the works and remedy any defects therein in strict accordance with the Contract, with due care and diligence and to the satisfaction of SPC, and shall provide all labour, including the supervision thereof, materials, constructional plant and all other things, whether of a temporary or permanent nature, required in and for such execution, completion and remedying of defects, as far as the necessity for providing the same is specified in or is reasonably to be inferred from the Contract. The Contractor shall comply with and adhere strictly to SPC's instructions and directions on any matter, touching or concerning the works.
- 9.3 The Contractor shall execute and complete the works in accordance with article 26 of these general terms and conditions, in particular with regard to health and safety requirements, insurance, working conditions for workers, construction, administration and environmental law.

### Insurance of the works

- 9.4 The Contractor shall insure at its own costs, immediately following signature of the Contract, in the joint names of SPC and the Contractor for the entire duration of the Contract, including the defect liability period, against all loss or damage from whatever cause arising, other than cause of Force majeure and against loss or damage for which the Contractor is responsible.
- 9.5 The Contractor shall insure against his liability for any death, material or physical damage, loss or injury which may occur to any property (including that of SPC) or to any person (including any employee of SPC) by or arising out of the execution of the works or in the carrying out of the Contract.
- 9.6 The Contractor shall insure against the liability of any accident or injury any workman or other person in the employment of the Contractor or any subcontractor.

### Responsibility of the Contractor

- 9.7 The Contractor shall take full responsibility for the adequacy, stability, and safety of all site operations and methods of construction.
- 9.8 The Contractor shall be responsible for the true and proper setting out of the works in relation to original points, lines and levels of reference given by SPC in writing and for the correctness of the position, levels, dimensions and alignment of all parts of the works and for the provision of all necessary instruments, appliances and labor in connection therewith. If, at any time during the progress of the works, any error shall appear or arise in the position, levels, dimensions or alignment of any part of the works, the Contractor, on being required so to do by SPC, shall, at his own cost, rectify such error to the satisfaction of SPC.

### Delays or damage to the works

- 9.9 The Contractor shall give written notice to SPC whenever planning or progress of the works is likely to be delayed or disrupted unless any further drawing or order, including a direction, instruction or approval, is issued by SPC within a reasonable time. The notice shall include details of drawing or order required and of why and by when it is required and of any delay or disruption likely to be suffered if it is late.
- 9.10 In the event that any damage or loss should happen to the works or to any part thereof from any cause whatsoever (except as shall be due to Force Majeure), the Contractor shall at his own cost repair and make good the same so that, at completion, the works shall be in good order and condition and in conformity in every respect with the requirements of the Contract and SPC's instructions.

### Fossils, artifacts, and antiques

- 9.11 All fossils, coins, artifacts, articles of value or antiquity and structures and other remains or things of geological or archaeological interest discovered on the site of the works shall as between SPC and the Contractor be deemed to be the absolute property of SPC. SPC shall then decide how such discoveries are to be dealt with, taking due account of the law of the State in which the works are carried out. The Contractor shall take reasonable precautions to prevent his workmen or any other persons from removing or damaging any such article or thing and shall immediately upon discovery thereof and before removal acquaint SPC of such discovery.

### Ownership of paid material and work

- 9.12 All material and work covered by payments made by SPC to the Contractor shall thereupon become the sole property of SPC.

### Defect liability period

- 9.13 During a period of 12 months, calculated from the date of completion of the works, the Contractor shall be bound to SPC by a defect liability period. During this period, the Contractor shall finish the work outstanding, if any, and execute all such work of repair, amendment, reconstruction, rectification. Further, the Contractor shall make good defects, imperfections, shrinkages, or other faults as may be required of the Contractor in writing by SPC. The Contractor shall also be liable for any damage to the works occasioned by him in the course of any operations carried out during the defect liability period.

9.14 All such outstanding work shall be carried out by the Contractor at his own expense if, in the opinion of SPC, the necessity thereof is due to the use of material or workmanship not in accordance with the Contract, or to neglect or failure on the part of the Contractor to comply with any obligation expressed or implied, on the Contractor's part under the Contract. For this purpose, SPC may withhold payment of minimum 5% of the remuneration as a defect liability bond pending expiry of the defect liability period for claims relating to defects. The Contractor may redeem this bond by providing a defect liability guarantee.

## TERMS OF PAYMENT

10.1 No invoice shall be submitted by the Contractor until the corresponding milestone has been formally accepted by SPC in accordance with the terms of the Contract. 10.5 SPC shall not be responsible for any expenses incurred by the Contractor in performing the Contract unless specifically stated in the Contract.

This includes derivative works created as a result of products created pursuant to the Contract. The Contractor acknowledges and agrees that such products, documents and other materials constitute works made for hire for SPC.
- 17.2 To the extent that any such intellectual property or other proprietary rights consist of any intellectual property or other proprietary rights of the Contractor: (i) that pre-existed the performance by the Contractor of its obligations under the Contract, or (ii) that the Contractor may develop or acquire, or may have developed or acquired, independently of the performance of its obligations under the Contract, SPC does not and shall not claim any ownership interest thereto, and the Contractor grants to SPC a perpetual license to use such intellectual property or other proprietary right solely for the purposes of and in accordance with the requirements of the Contract.
