

Summary of the Pacific Community's 2015 work programme in

Niue

(November 2015 update)

The following table lists key work areas that SPC is undertaking in 2015 in cooperation with Niue. The country-specific work listed here complements other SPC work undertaken at a regional level to benefit the people of Niue and achieve its national development priorities. SPC's key regional work will be presented in its next Programme Results Report (to be published in May 2016).

SPC's expected contribution to national development goals			
Expected long-term result (impact)	Expected medium-term result (outcome)	Key outputs for the year	Status
<i>Pacific communities are empowered and resilient</i>			
Fisheries, Aquaculture and Marine Ecosystems			
Improved management of coastal fisheries	Enhanced community-based approaches and national management arrangements; Incorporation of ecosystem-based principles and coastal fisheries legislation into community-based fisheries management	Assistance and advice provided for national policy development: regulations, legislation reviews and management arrangements	On Track
Climate Change and Disaster Risk			
Strengthened resilience to climate change and disasters	Increased capacity to effectively manage the risks posed by climate change and disasters	Refresher training on the logical framework approach provided, and the impact of training assessed	Completed
		Newly installed rainwater storage systems monitored and maintained; Rainwater tanks and appurtenances procured, supplied and delivered to occupied households in all communities; Education, communication, awareness and understanding of rainwater harvesting enhanced	On Track
Land Resources			
Strengthened food and nutritional security resilience to impacts of disasters and climate change	Increased production and consumption of local, nutritious foods	Support provided for the development of a sector strategy on crop production and extension - final draft submitted	On Track
<i>Pacific Island people reach their potential and lead long and healthy lives</i>			
Gender, Human Rights and Culture			
Enhanced development for all Pacific people, through increasing the observance of all human rights and good governance standards	Increased observance of human rights and good governance standards by decision-makers	Technical assistance provided to the Family Protection Bill consultations	Ongoing
		Technical assistance provided to ensure human rights policies and laws comply with international conventions	Completed
Increased development potential of Pacific Island people in culture, and empowerment of women and young people	Integrated approach to human development fostered at regional and national levels	Gender stocktake report published; Four-year country work plan drafted	On Track

SPC's expected contribution to national development goals			
Expected long-term result (impact)	Expected medium-term result (outcome)	Key outputs for the year	Status
Public Health			
Improved health and well-being of Pacific communities	Pacific Island countries and territories (PICTs) develop public health policies, plans and regulations that respond effectively to national priorities	National capacity for planning, implementation and monitoring strengthened through technical support	On Track
		Technical assistance for policies and legislation that address the socio-economic determinants of non-communicable diseases	On Track
	PICTs have access to high-quality information and evidence to inform policy and the delivery of core public health functions	Lab strengthening in sexually transmitted infections (STI)/HIV and tuberculosis quality assurance; Follow-up provided on strengthening the use of filter paper for arbovirus laboratory surveillance under lab-based surveillance and Microbiology and GeneXPert installation	On Track
		Support to enhance surveillance initiative in Niue for the Pacific Community Committee of Representatives of Governments and Administrations (CRGA) annual meeting, and beyond	On Track
<i>The Pacific region and its people benefit from inclusive and sustainable economic growth</i>			
Energy Services			
Sustainable economic development through accessible, affordable, efficient, secure and safe energy services	Strengthened institutions and expertise in the energy sector	Technical vocational education and training (TVET) need and gap analysis conducted - workshop report produced	Completed
	Improved access to affordable and efficient energy and transport services	Awareness-raising programme launched for use of bicycles as a means of transport in Niue - 30 bicycles purchased to start the programme	On Track
	Supported the development and implementation of effective policies, plans and regulatory frameworks	Niue Strategic Energy Roadmap developed and submitted to the Department for Environment for adoption	On Track
Fisheries, Aquaculture and Marine Ecosystems			
Improved management of oceanic fisheries	Enhanced national capacity in oceanic fishery data management and data use; Enhanced national oceanic fishery data management to meet national requirements and international obligations	National tuna fishery data management staff trained in using TUFMAN-2 database system; New TUFMAN-2 system installed and trialled	On Track
	National tuna oceanic fisheries policy- and decision-making are informed by the best, science-based, stock assessments and advice	Reports of longline fishing performance in the southern longline fishery produced	On Track

SPC’s expected contribution to national development goals			
Expected long-term result (impact)	Expected medium-term result (outcome)	Key outputs for the year	Status
Land Resources			
Enhanced sustainable land, agriculture and forestry resource management	Increased capacity of sustainable land and forest management	Code of logging practice and forest management plan implemented	On Track
Increased contribution from agriculture and forestry sectors to inclusive, broad-based economic growth	Increased availability of, and better access to, traditional and improved crop and animal diversity	Pig and chicken animal genetic resources development and conservation activities	On Track
	Increased capacity of Pacific Island countries and territories (PICTs) to meet standards, guidelines and conditions for exports and domestic trade	Technical advice provided on the development of import risk assessments for livestock and livestock products; Importation of pig semen from New Zealand	Completed
	Increased capacity of sustainable land and forest management	Conservation and multiplication sites for indigenous pigs and chickens identified and established	Completed
		Participatory rural appraisal completed to inform future project interventions	On Track
Statistics for Development			
Pacific national and regional statistics are accessible and are being utilised	PICTs have the technical capacity to manage and implement all core statistical collections, including key administrative databases, as required by national development plans, including national strategies for the development of statistics	Household Income and Expenditure Survey (HIES) data entry system set up completed; HIES plans and budgets agreed	On Track
		South-South technical assistance provided to complete HIES enumeration training and to set up computers for data entry	On Track
