I. Data Characteristics

Coverage

Briefly describe the key characteristics of the data; i.e., the features of which a user must be aware to use the data appropriately. These include the unit of measure, scope (e.g., geographic, institutional, product), statistical characteristics (e.g., seasonal adjustment, index number base year), basic data source, and accounting conventions.

This data category is not relevant to Kiribati. There is no stock exchange or equivalent organisation.

Periodicity:

Identify the frequency of compilation and dissemination of the data (e.g., monthly, quarterly, annual)

Timeliness:

Identify the lapse of time between the end of a reference period (or a reference date) and the dissemination

of the data.

II. Quality

Documentation of Methodology:

Identify any publicly available statement of methodology that describes how the data are compiled and the sources of data.

Data to Support Cross-checks and Assurance of Reasonableness:

Describe the kind and extent of detail of published data, the statistical frameworks (including accounting identities and statistical relationships), and the comparisons and reconciliations that are available to assist users in assessing the quality of the data.

III. Plans for Improvement

Describe short-term (in the next year) and medium-term (2-5 years) plans for making improvements in the data category and note any improvements that have been implemented in the past two years. Technical or other assistance needs that may be required for implementing these plans should also be noted, if applicable. If it has been determined that there are no shortcomings that need to be addressed, this determination should be explicitly stated.
