

Country programme plan for Federated States of Micronesia

(June 2016 update)

The following table lists key work areas that SPC is undertaking in 2016 in cooperation with Federated States of Micronesia. The country-specific work listed here complements other SPC work undertaken at a regional level to benefit the people of Federated States of Micronesia and achieve its national development priorities. SPC's key regional work is presented in the Pacific Community Results Report.

SPC expected contribution to national development goals			
Expected long term result (impact)	Expected medium term result (outcome)	Status	Outputs taking place or expected to commence this year
National Level Work			
<i>Pacific Communities are Empowered and Resilient</i>			
Fisheries, Aquaculture and Marine Ecosystems			
Improved management of coastal fisheries	Enhanced community-based approaches & national management arrangements, incorporation of ecosystem-based principles, and coastal fisheries legislation	On Track	Identified and implemented adaptation activities including capacity development - Provided support for Fish Aggravating Device (FAD) monitoring work provided in early 2016
		Completed	Assistance provided to establishing and strengthening a community-based ecosystem approach to fisheries management (CEAFM) / ridge-to-reef / whole of island approaches in FSM - Fisheries Management Plan for Yap
<i>Pacific Island people reach their potential and lead long and healthy lives</i>			
Education and Quality Assessment Programme			
Improved quality of education	Raising of students achievements in literacy and numeracy	On Track	Technical assistance provided in the assessment and monitoring of literacy, numeracy, and life skills in the Pacific
Gender, Human Rights, and Culture			
Increased development potential of Pacific Island people in culture and enhanced empowerment of women and young people	Integrated approach to human development fostered at regional and national levels	Ongoing	Increased capacity to implement the Pacific Women Shaping Pacific Development partners projects
		On Track	Increased the capacity of the National Women's Machinery (NWM) to implement gender mainstreaming
<i>The Pacific region and its people benefit from inclusive and sustainable economic growth</i>			
Energy and Transport Services			
Sustainable economic development through accessible, affordable, efficient, secure and safe energy and transport services	Strong leadership in the Pacific's energy sector, with good governance, effective multi-sectoral coordination and strategic partnerships, including monitoring and evaluation	On Track	Climate change adaptation and sustainable energy training networks strengthened
		On Track	Developed course and unit descriptors for climate change adaptation and sustainable energy; At least 10 trainers trained on train-the-trainer courses
	Development and implementation of effective policies, plans and regulatory frameworks supported	Completed	Compliance audits on both administration Standards of Training Certification and Watchkeeping (STCW) and designated authority International Ship and Port Facility Security Code (ISPS) initial audits; staff trained in maritime safety and security
		Completed	Technical assistance in Pohnpei through updated maritime data collected, validated and disseminated

SPC expected contribution to national development goals			
Expected long term result (impact)	Expected medium term result (outcome)	Status	Outputs taking place or expected to commence this year
Fisheries, Aquaculture and Marine Ecosystems			
Improved management of oceanic fisheries	Enhanced national oceanic fishery data management to meet national requirements and international obligations	Ongoing	Fisheries observer data quality and coverage audit completed
Increased contribution of fisheries to food security and livelihoods	To develop sustainable nearshore fisheries in PICTs to provide food security, livelihoods, and economic growth and climate change adaptation	Ongoing	Strengthened fish aggregating device (FAD) programme in Chuuk (FSM); Current phase of the project involves ongoing monitoring of the FAD programme
Geoscience			
Sustainable management and development of ocean and island resources	Natural resources, systems, and processes monitored and assessed	Completed	Cost-benefit analysis conducted in coastal zone management in Kosrae (FSM) - Technical report completed
Land resources			
Increased contribution from agriculture and forestry sectors to inclusive broad based economic growth	Increased capacity of PICTs to meet standards, guidelines and conditions for exports and domestic trade	On Track	Capacity building support rendered to Northern Pacific countries on the establishment of the Micronesia biosecurity plans; training provided
Enhanced sustainable land, agriculture and forestry resource management	Increased capacity in sustainable land and forestry management	On Track	Inventory of coconut studies and assessments of coconut replanting needs carried out
Statistics for Development			
Pacific national and regional statistics are accessible and are being utilised	PICTs are producing the agreed core set of statistics across key sectors including but not restricted to economics, population, CRVS, education and health, as required by their national plans and agreed upon regional and international reporting frameworks	On Track	Held in country training on data analysis and reporting on Household Income and Expenditure Survey (HIES)
		On Track	Produced HIES and fisheries fact sheets
	PICTs have the technical capacity to manage and implement all core statistical collections, including key administrative databases, as required by national development plans, including national strategies for the development of statistics	On Track	Training conducted on CSPro and set up for pilot agriculture census 2016
		Completed	Pilot training support for agriculture census
