

Summary of the Pacific Community's 2015 work programme in Guam

(November 2015 update)

The following table lists key work areas that SPC is undertaking in 2015 in cooperation with Guam. The country-specific work listed here complements other SPC work undertaken at a regional level to benefit the people of Guam and achieve its national development priorities. SPC's key regional work will be presented in its next Programme Results Report (to be published in May 2016).

| SPC's expected contribution to national development goals | | | |
|---|--|--|----------|
| Expected long-term result (impact) | Expected medium-term result (outcome) | Key outputs for the year | Status |
| <i>Pacific Island people reach their potential and lead long and healthy lives</i> | | | |
| Public Health | | | |
| Improved health and well-being of Pacific communities | Pacific Island countries and territories (PICTs) have access to high-quality information and evidence to inform policy and the delivery of core public health functions | Technical assistance provided to strengthen epidemiology capacity in preparation for 2016 Festival of Pacific Arts | On Track |
| | | Support provided for laboratory strengthening as an L2 laboratory with microbiology training at Guam Public Health Laboratory (GPHL) - Phase 1 and 2 completed | Ongoing |
| <i>The Pacific region and its people benefit from inclusive and sustainable economic growth</i> | | | |
| Statistics for Development | | | |
| Pacific national and regional statistics are accessible and are being utilised | PICTs have the technical capacity to manage and implement all core statistical collections, including key administrative databases, as required by national development plans, including national strategies for the development of statistics | Assessment and national planning processes reviewed for civil registration and vital statistics | On Track |
