Camouflage grouper

Plectropomus leopardus
Leopard coral grouper

Epinephelus tauvina
Greasy grouper

Plectropomus oligacanthus
Highfin coral grouper

Chuuk State has placed a seasonal ban on fishing grouper, from January 1 to April 30, which are the peak breeding months for these fish.

The ban is intended to let them breed each year so we catch more later.

Violations may result in confiscations and fines.

**FISH SMART.
FISH FOREVER.**

The Fan Itach Chuuk campaign is movement to revive our grouper fisheries, so we can better meet our needs today and tomorrow. That means pledging to avoid grouper during their peak breeding months, January through April. For this work to succeed, it will take all of us.
