with the technical support of
Clarence Dass**

One night I
woke up...

And I was
by myself.

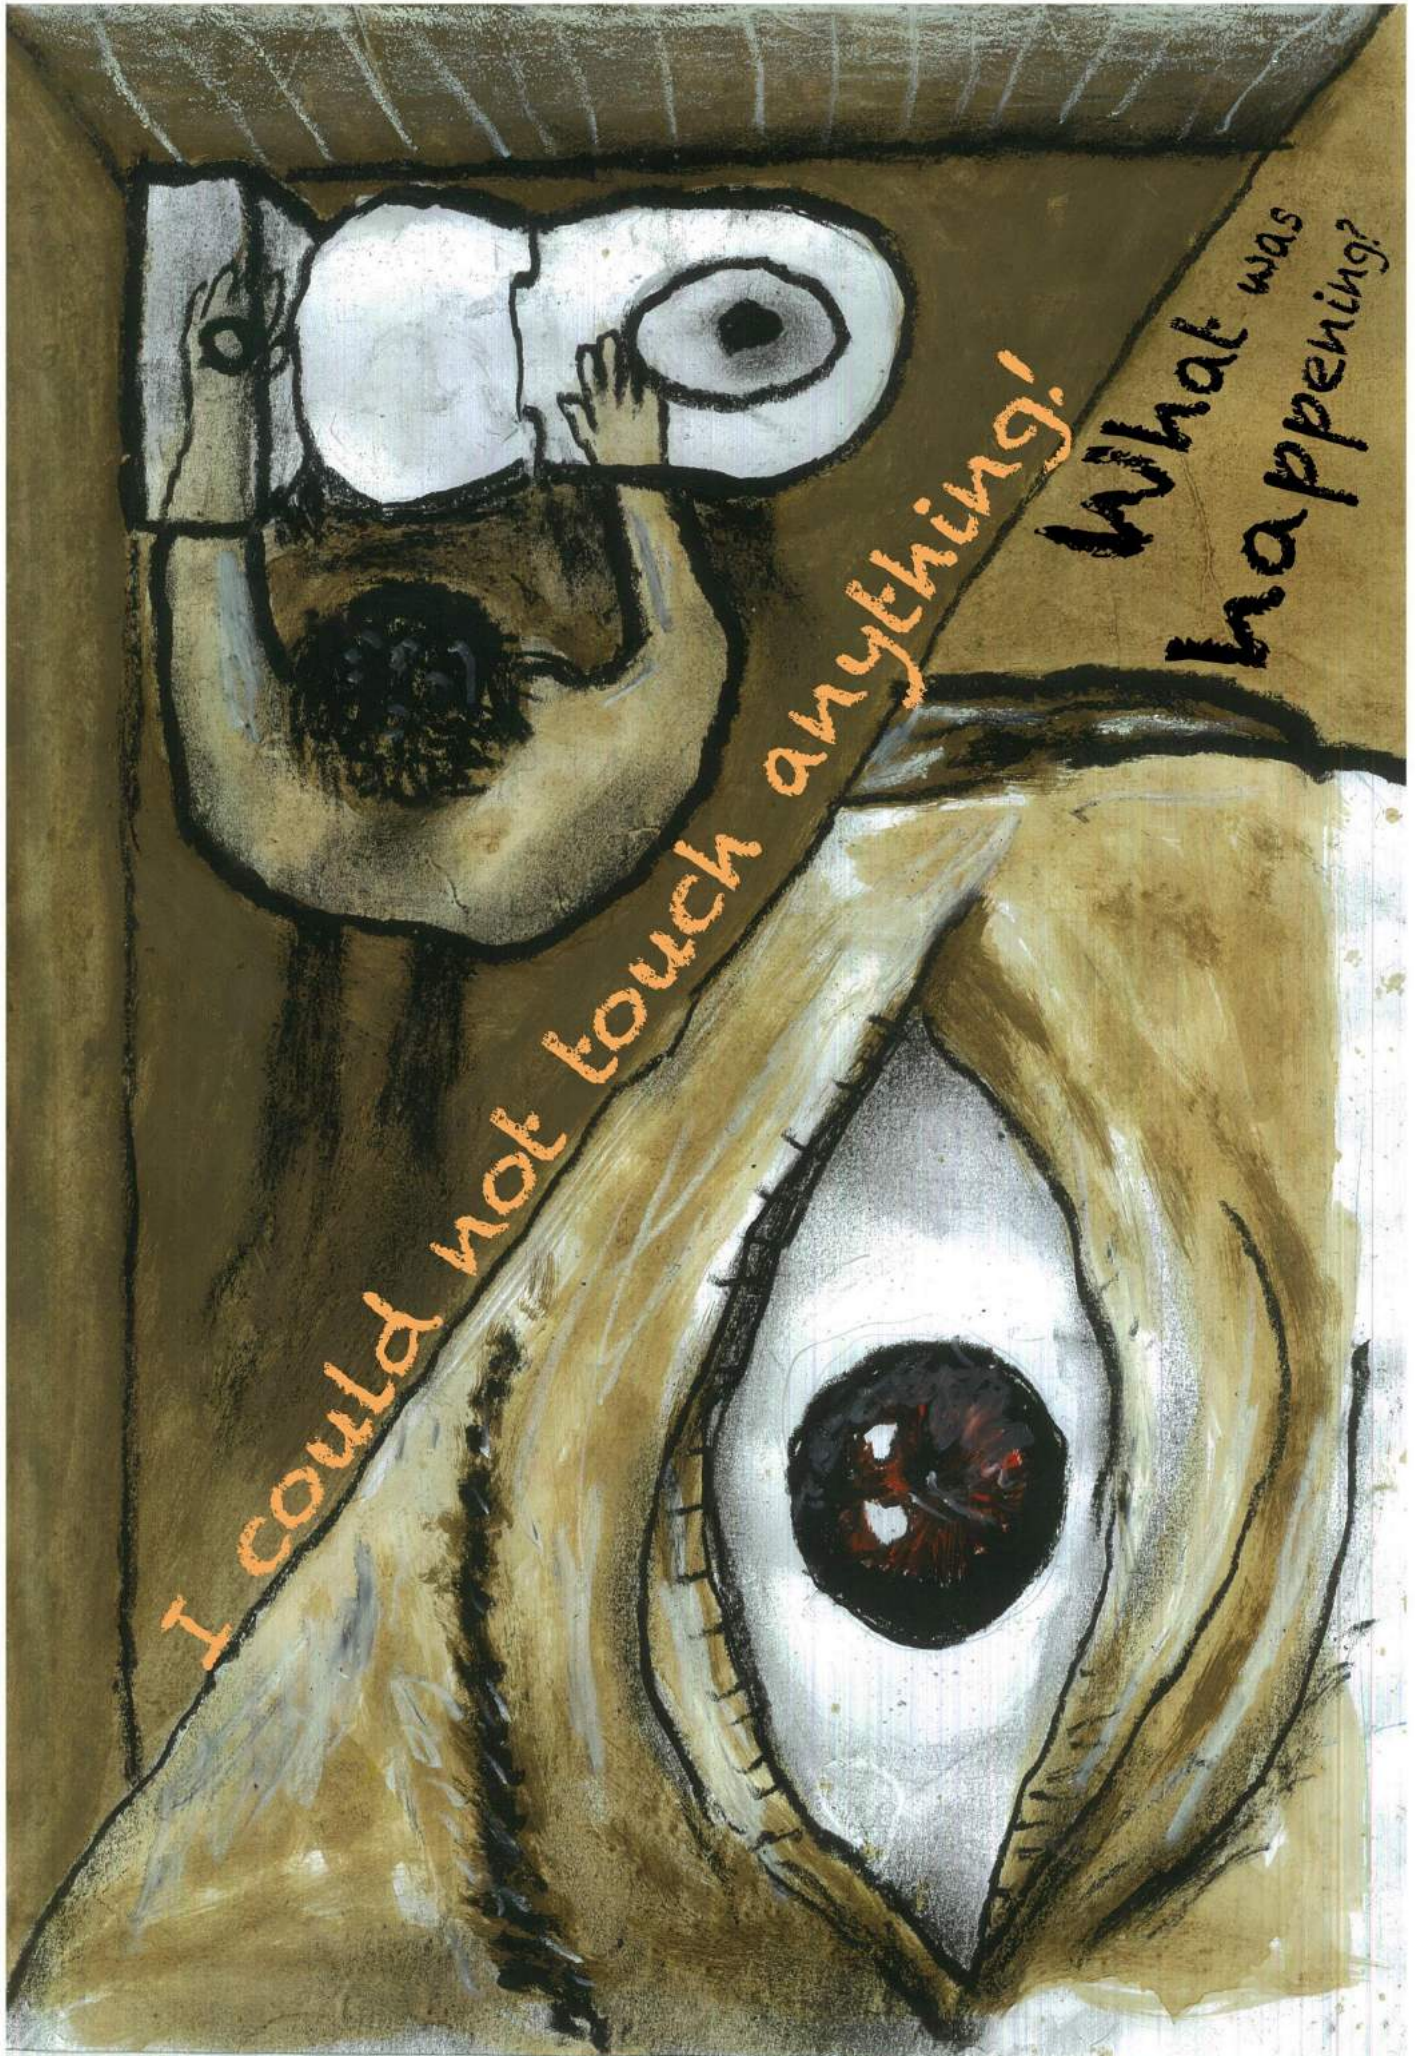

I got out of
bed

...

I went to the bathroom to
brush my teeth

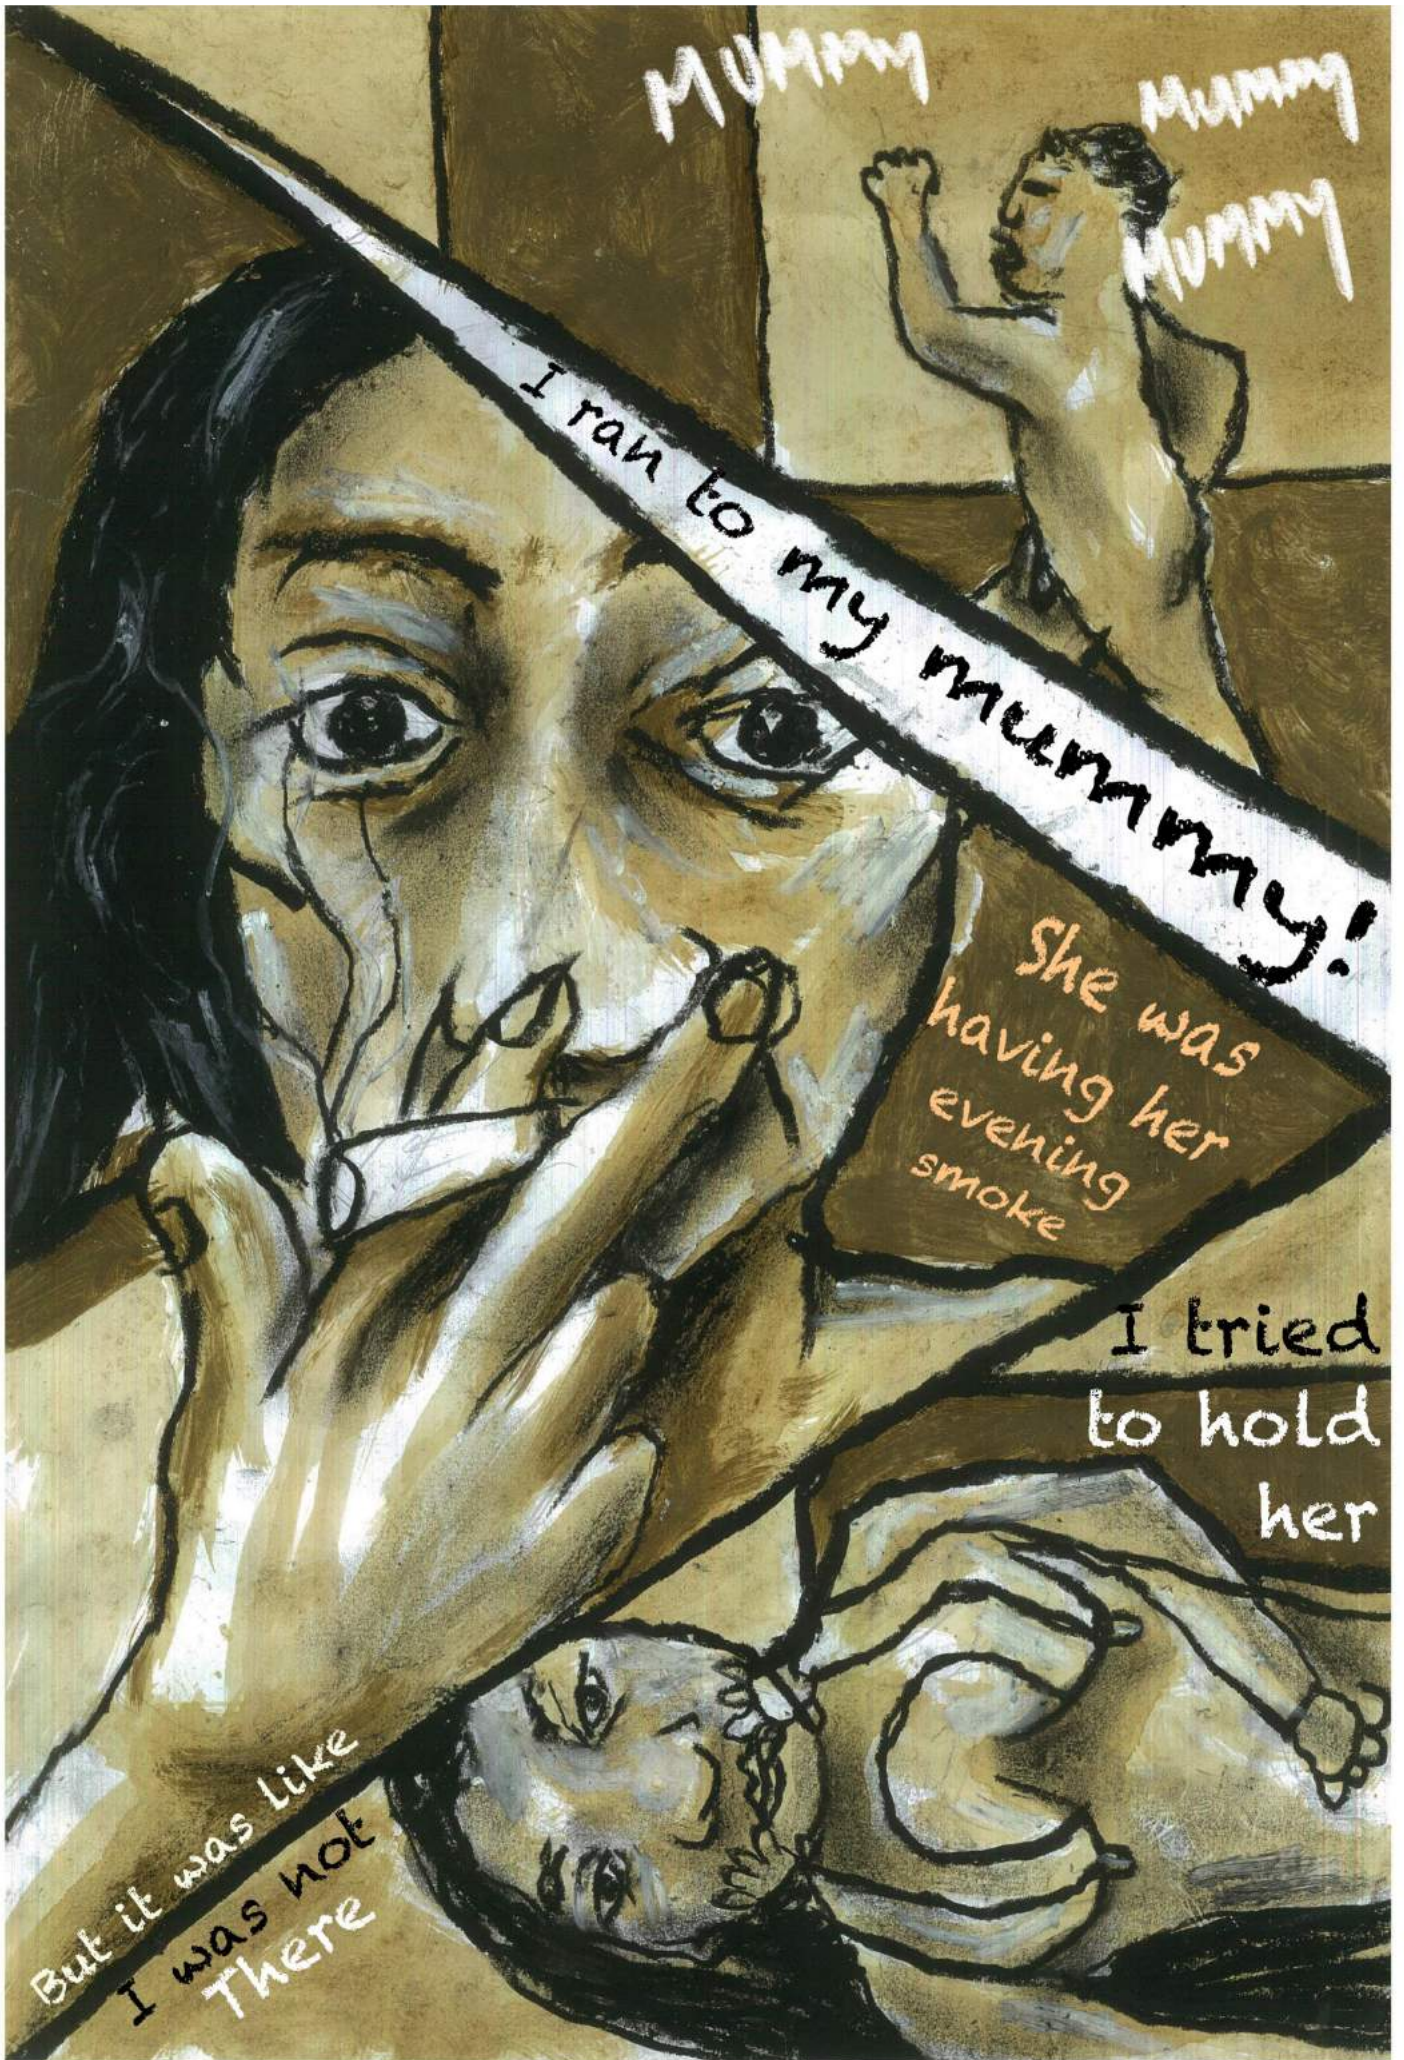

But
something
was wrong!

I could not touch anything!

What was happening?

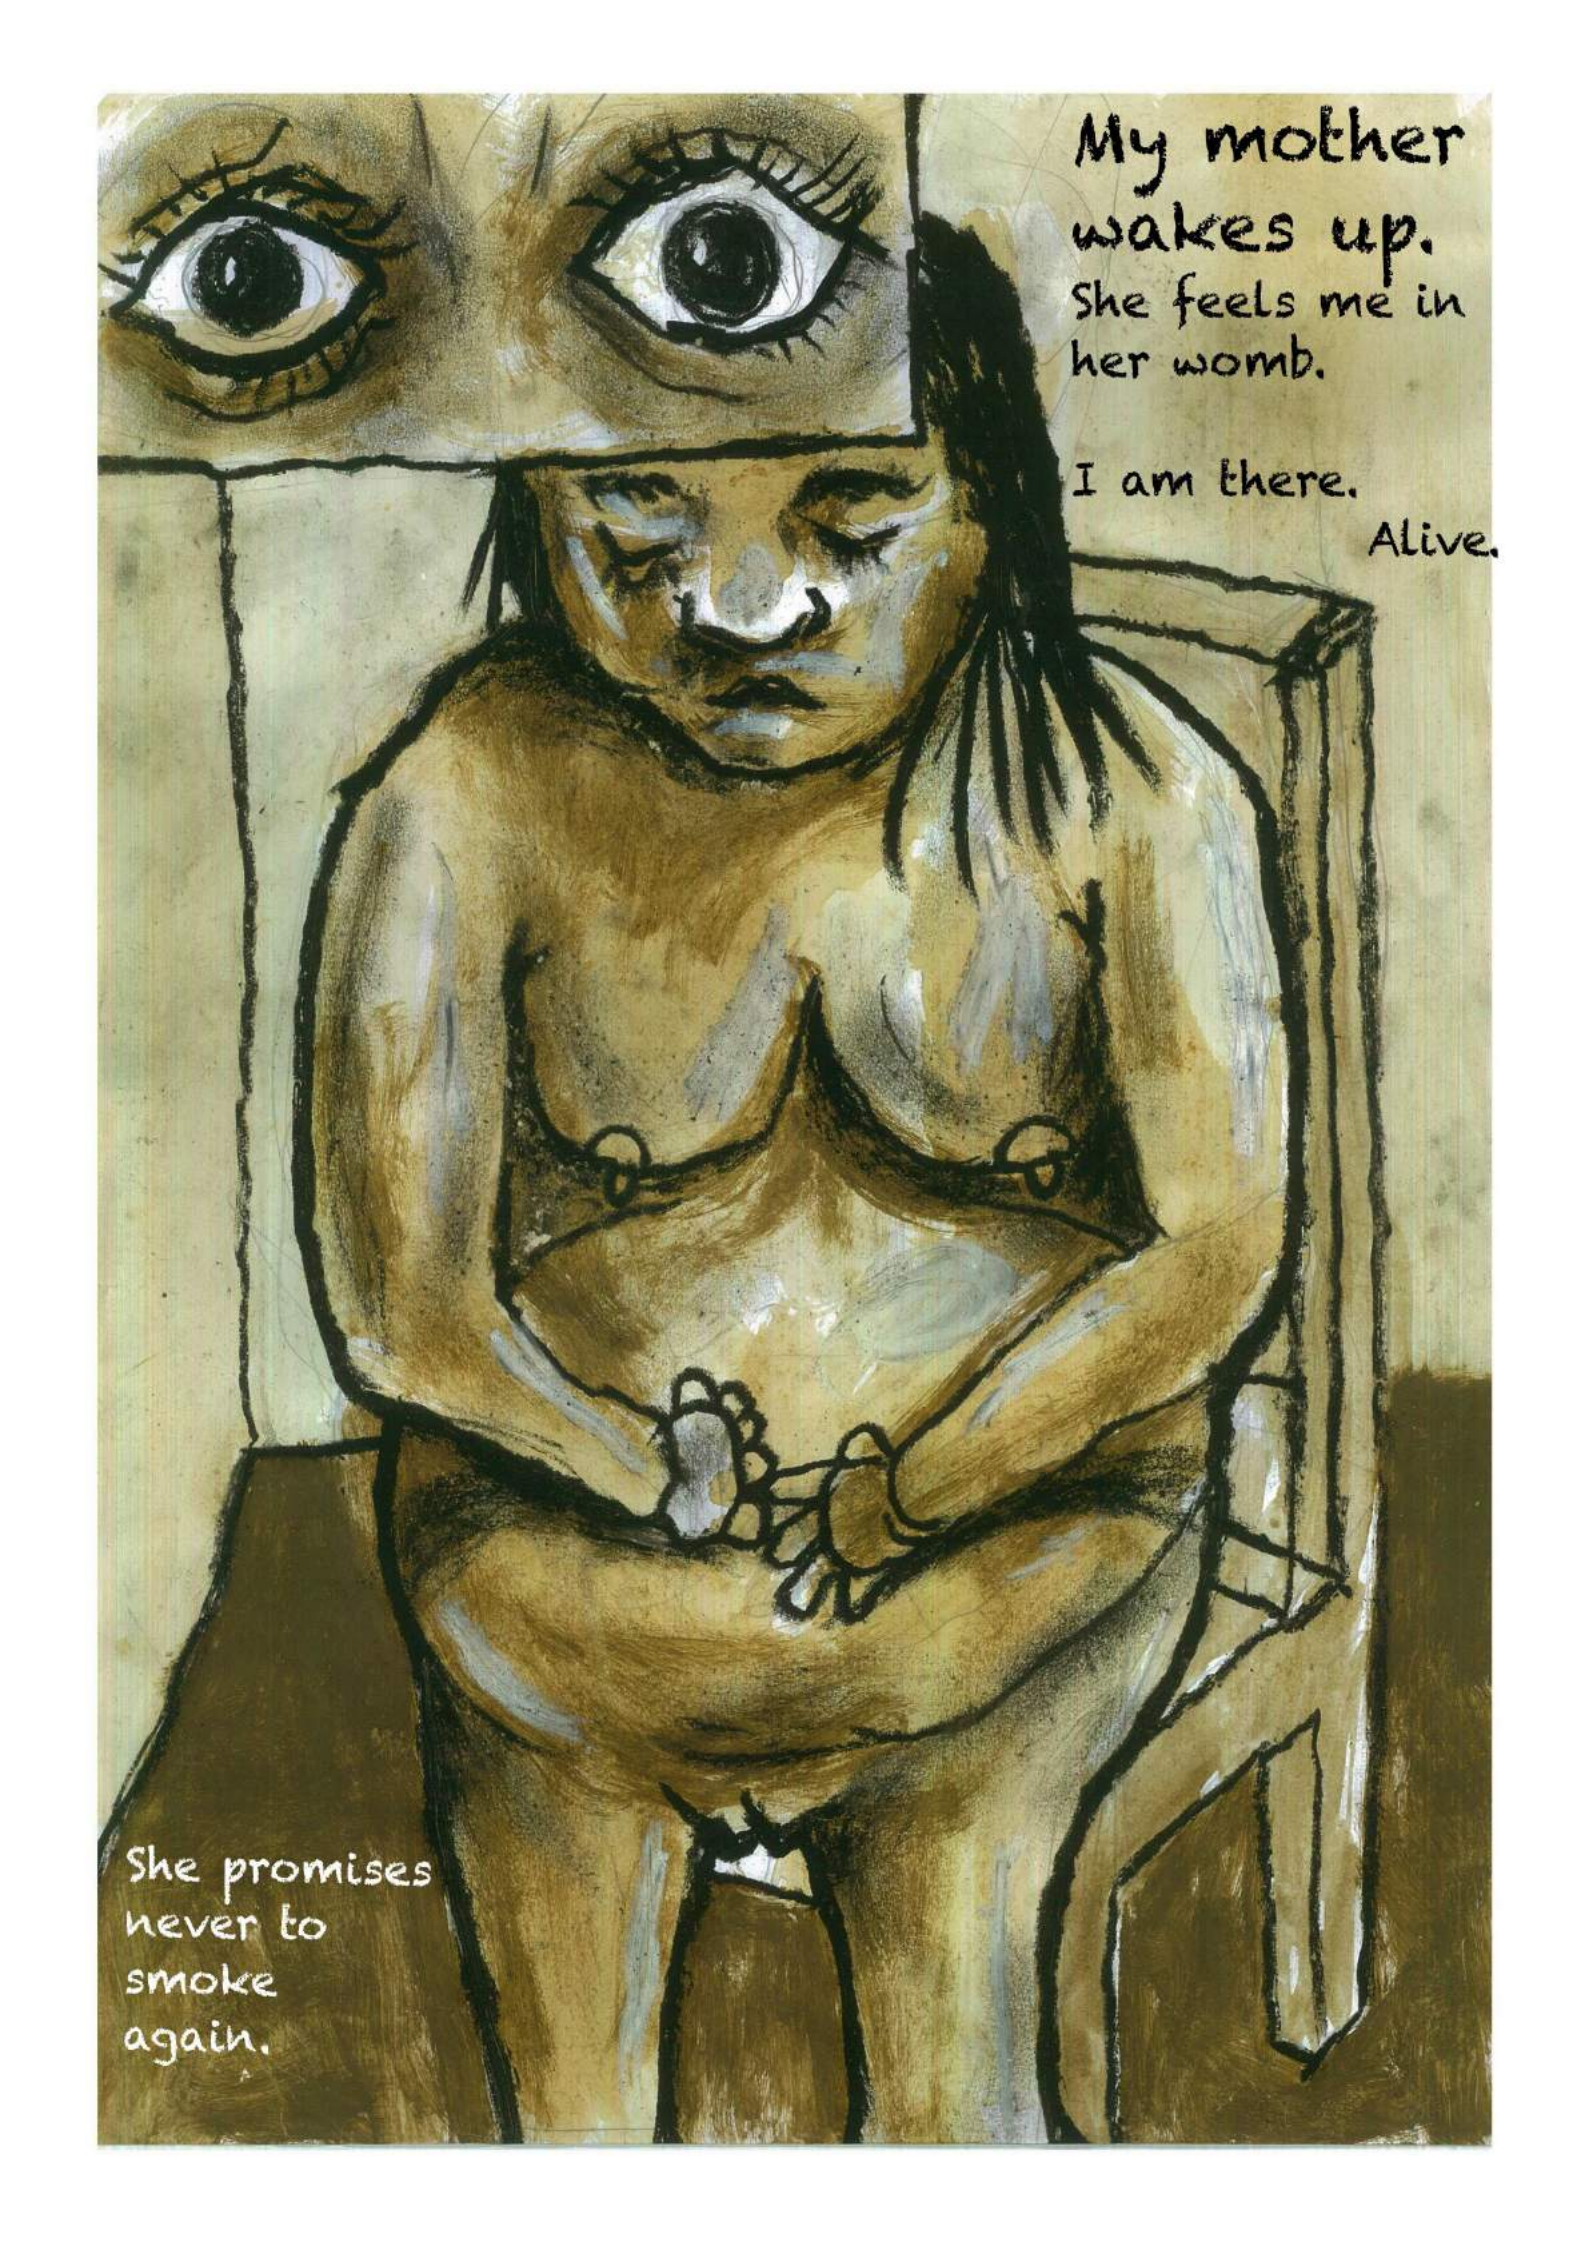

MUMMY
MUMMY
MUMMY

I ran to my mummy!

She was
having her
evening
smoke

I tried
to hold
her

But it was like
I was not
there

My mother
wakes up.
She feels me in
her womb.

I am there.

Alive.

She promises
never to
smoke
again.
