

2017 Results Summary for Niue

This report provides an overview of the results achieved in Niue in 2017 through SPC scientific and technical assistance. It includes results specific to Niue and multi-country results, where initiatives involve Niue and other Pacific Island Countries and Territories (PICTs). Results are reported against SPC's nine development objectives as outlined in the *Pacific Community Strategic Plan 2016-2020*.

This report should be read together with the 2017 Regional Results Summary.

33 results
in
Niue

10
country-specific
23
multi-country results

0 INSTANCES OF SUSTAINED IMPACT

Evidence of the difference SPC has made towards achieving PICTs' development objectives

9 CHANGES IN PRACTICE

Evidence of the effects of the application of acquired knowledge, skills, capacities, and changed attitudes on PICTs' individual or institutional performance

3 CHANGES IN ATTITUDE

Evidence of effectiveness of SPC's outputs and actions in changing PICTs' beliefs, opinions, motivations, intentions

6 CHANGES IN KNOWLEDGE

Evidence of effectiveness of SPC's outputs and actions in increasing PICTs' knowledge, skills, capacities, awareness

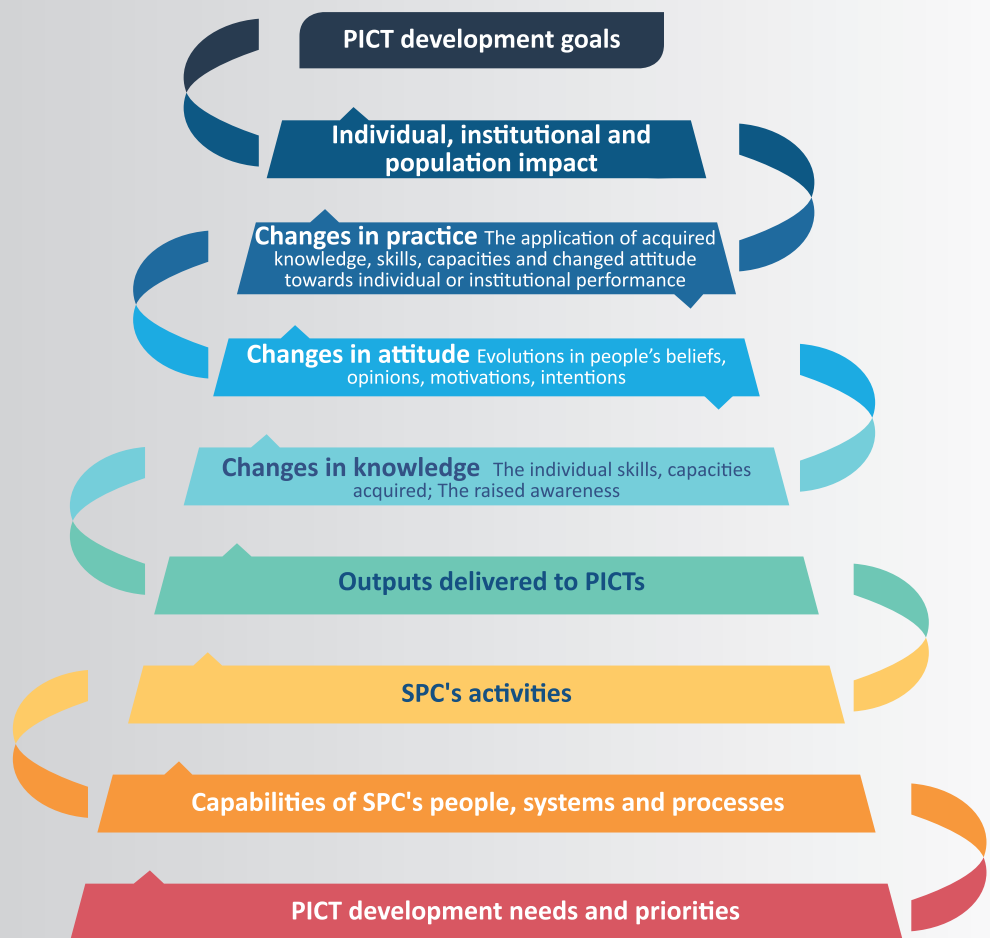

15 OUTPUTS

Evidence of relevance of SPC scientific and technical assistance provided to PICTs

Pacific Community Results Hierarchy

Results are described as dynamic change processes in PICTS along a non-linear hierarchy. The hierarchy shows how SPC responds to PICT development needs and priorities with appropriate capabilities to deliver outputs to PICTs (i.e. goods and services) to achieve changes in knowledge, attitude and practice, and where sustained over time, impact at the individual, institutional and population level. Ultimately the change pathway contribute to the three development goals of the Pacific Community Strategic Plan 2016-2020.

Sustainable Development Goals

The report also shows specific areas of synergy between the 17 Sustainable Development Goals and SPC's nine development objectives.

2017 Results Summary for Niue

Result description	Result level	Result type	PICTs
 <p>Strengthen sustainable management of natural resources (fisheries, forestry, land use, agriculture, minerals, water)</p>			
Fisheries			
Tails app used in 4 new PICTs, bringing the total to 9 PICTs by end of 2017. Fisheries staff trained in Cook Islands, Fiji, Niue, Tonga and Vanuatu. 8525 trips entered using Tails in 2017 (only 803 entered from paper)	CHANGE IN PRACTICE	Knowledge integration informing practice	Cook Islands, Fiji, Nauru, Niue, Samoa, Tokelau, Tonga, Tuvalu, Vanuatu
			
Data collected on invertebrates and finfish in 3 PICTs, with a total of 352 stations surveyed	OUTPUT	Knowledge building, e.g. data collection and mapping	Federated States of Micronesia, Niue, Wallis and Futuna
			
Information on seasonality and value of target tuna and important bycatch species in the longline fishery within PICT EEZs provided to 7 PICTs	OUTPUT	Knowledge building, e.g. assessment and analysis	American Samoa, Kiribati, Nauru, Niue, Samoa, Tokelau, Tuvalu
			
A resource for accessing commercial fisheries data and plots provided to 9 PICTs	OUTPUT	Systems building, e.g. app/programme development	Cook Islands, Federated States of Micronesia, Fiji, Kiribati, Marshall Islands, Nauru, Niue, Palau, Papua New Guinea
			
Minerals and water			
Contributed to analysis of the marine ecosystems of Niue island and Beveridge Reef	OUTPUT	Knowledge building, e.g. assessment and analysis	Niue
			
 <p>Improve pathways to international markets (mobility, private enterprises, phytosanitary and biosecurity standards supporting trade)</p>			
Evidence produced by SPC used for decision-making on NZ market access for fresh herbs	CHANGE IN PRACTICE	Knowledge integration informing practice	Niue
			

Result description	Result level	Result type	PICTs
Carried out a delimiting survey for herb pests and compiled a comprehensive market access report for Niue to fulfil the requirements of New Zealand's Ministry of Primary Industries for export of various herbs	OUTPUT 	Systems building, e.g. app/programme development	Niue
POETCom continued to build capacity of private sector and community-based entities (such as Ranadi Plantation in Fiji, Marshall Islands Organic Farmers Association) to meet standards for Pasifika Organic certification	CHANGE IN PRACTICE 	Skills transfer	Federated States of Micronesia, Fiji, Marshall Islands, Niue
Knowledge building through 5 essential initial port audits and 4 follow-up port audits completed	OUTPUT 	Systems building, e.g. app/programme development	Cook Islands, Fiji, Kiribati, Niue, Solomon Islands, Tonga

Strengthen sustainable transport and energy security

Support for Intended Nationally Determined Contributions efforts. Data reporting to the Global Tracking Framework currently ongoing with access data provided to the World Bank team	CHANGE IN PRACTICE 	Knowledge integration informing practice	Niue
Review of gaps in the energy sector to identify areas needing strengthening	OUTPUT 	Knowledge building, e.g. advice, review, analysis, audit	Kiribati, Niue, Tuvalu
Compliance audits completed to ensure minimal standards are met by national maritime bodies, such as Maritime Designated Authority audit, International Ship and Port Security audit, Standards of Training, Certification and Watchkeeping for Seafarers (STCW) audit for administration and Maritime Training Institutes (MTI)	OUTPUT 	Knowledge building, e.g. advice, review, analysis, audit	Kiribati, Nauru, Niue, Tuvalu
Country energy rating awareness reports completed and circulated in 10 PICTs	OUTPUT 	Awareness raising	Cook Islands, Fiji, Kiribati, Niue, Papua New Guinea, Samoa, Solomon Islands, Tonga, Tuvalu, Vanuatu

Strengthen access to and use of development statistics in policy development and monitoring progress

Completion of Niue 2017 census of population and housing with final datasets produced by Niue	CHANGE IN PRACTICE 	Censuses and surveys	Niue
---	---	----------------------	------

Result description	Result level	Result type	PICTs
Facilitated South-South exchange between civil registration offices of Tokelau and Niue, which increased understanding of registration processes and practices in Niue	CHANGE IN KNOWLEDGE 	Increased knowledge	Niue, Tokelau
Training for selected PICTs on the development of national CRVS plans. All countries developed a draft CRVS plan	CHANGE IN KNOWLEDGE 	Increased knowledge	American Samoa, Cook Islands, Nauru, Niue, Tokelau, Tuvalu
SPC-Australian Bureau of Statistics held a workshop on CPI base revisions	OUTPUT 	Convening, facilitation	Cook Islands, Fiji, Niue, Northern Mariana Islands, Papua New Guinea, Solomon Islands, Timor Leste, Tonga, Vanuatu
 Improve multi-sectoral responses to climate change and disasters			
Improved disaster preparedness and coordination by strengthening human resources in the NDMO	CHANGE IN KNOWLEDGE 	Increased capacity	Niue
Improved resources made available to support DRM and emergency management through procurement of a structural fire appliance. Funded additional radios to support communication by NDMO during emergencies and disasters	OUTPUT 	Goods or services delivered	Niue
More than 1800 tide calendars printed and distributed to 14 PICTs, where they are being used by National Meteorological Services to provide public early warning of king tides and inundation events, and by tourism operators, fishers, shipping companies, and others for monitoring/decision-making purposes related to ocean-based activities	CHANGE IN PRACTICE 	Knowledge integration informing practice	Cook Islands, Federated States of Micronesia, Fiji, Kiribati, Marshall Islands, Nauru, Niue, Palau, Papua New Guinea, Samoa, Solomon Islands, Tonga, Tuvalu, Vanuatu
Ongoing maintenance and calibration of Pacific Sea Level Monitoring Stations	OUTPUT 	Infrastructure assistance	Cook Islands, Federated States of Micronesia, Fiji, Kiribati, Marshall Islands, Nauru, Niue, Palau, Papua New Guinea, Samoa, Solomon Islands, Tonga, Tuvalu, Vanuatu

Result description	Result level	Result type	PICTs
 Improve multi-sectoral responses to non communicable diseases and food security			
Food-based dietary guidelines endorsed and implementation demonstrated	CHANGE IN PRACTICE	Implementation of policies, legislation and initiatives	Niue
			
Food-based dietary guidelines adapted for local use	CHANGE IN ATTITUDE	Development of policies and papers demonstrating change in attitude	Niue
			
Training on NCD risk factors convened for 25 participants – trainees scored 45% in the pre-test and 65% in the post-test	CHANGE IN KNOWLEDGE	Increased knowledge	Niue
			
Pacific Monitoring Alliance for NCD Action (MANA) dashboards endorsed and use demonstrated	CHANGE IN PRACTICE	Implementation of policies, legislation and initiatives	French Polynesia, Nauru, Niue, Tonga, Wallis and Futuna
			
Governments committed to address NCDs, and to develop and strengthen multi-sectoral NCD strategies and committee	CHANGE IN ATTITUDE	Commitment to action	Kiribati, Nauru, Niue, Solomon Islands
			
MANA dashboard developed and action committed to	CHANGE IN ATTITUDE	Change in attitude as a result of SPC support	French Polynesia, Nauru, New Caledonia, Niue, Tonga, Wallis and Futuna
			
8 participants increased their skills and knowledge after attending training on Oceania food composition, NCDs and law, diabetes, food security and health promotion	CHANGE IN KNOWLEDGE	Increased knowledge	Federated States of Micronesia, Guam, Marshall Islands, Niue, Tonga, Vanuatu
			

Result description	Result level	Result type	PICTs
 Strengthen regional public health surveillance and response			
55 health staff participated in outbreak simulation exercises	OUTPUT	Capacity development, including training and mentoring	American Samoa, Cook Islands, Federated States of Micronesia, Fiji, French Polynesia, Guam, Kiribati, Marshall Islands, Niue, Northern Mariana Islands, Samoa, Solomon Islands, Tokelau, Tonga, Tuvalu, Vanuatu
 Improve education quality			
130 people trained in PILNA processes and procedures in 15 PICTs for PILNA trial. Engaging national PILNA counterparts in the processes and procedures strengthened knowledge and practice in preparation for actual PILNA administration in 2018	CHANGE IN PRACTICE	Skills transfer	Cook Islands, Federated States of Micronesia, Fiji, Kiribati, Marshall Islands, Nauru, Niue, Palau, Papua New Guinea, Samoa, Solomon Islands, Tokelau, Tonga, Tuvalu, Vanuatu
10 PICTs participated in training on using assessment data and learning outcomes to conduct educational research, as part of phase 1 of research on utilisation of PILNA results to inform policy change	CHANGE IN KNOWLEDGE	Increased knowledge	Cook Islands, Kiribati, Niue, Palau, Papua New Guinea, Samoa, Solomon Islands, Tokelau, Tuvalu, Vanuatu
Survey conducted on the extent to which PILNA data has been used at system level to inform policy change. Over 70 education ministry officials were consulted and interviewed	OUTPUT	Knowledge building, e.g. meetings, assessment, analysis, information, education, communication	Cook Islands, Kiribati, Niue, Papua New Guinea, Solomon Islands, Tokelau, Tuvalu, Vanuatu
To raise awareness of effective data utilisation, a regional workshop was convened and attended by representatives of 15 PICTs and development partners (ADB, DFAT, PIFS, UNESCO, UNICEF, UIS, USP, World Bank). High levels of satisfaction were recorded during the post-summit evaluation	OUTPUT	Knowledge building, e.g. meetings, assessment, analysis, information, education, communication	Cook Islands, Federated States of Micronesia, Fiji, Kiribati, Marshall Islands, Nauru, Niue, Palau, Papua New Guinea, Samoa, Solomon Islands, Tokelau, Tonga, Tuvalu, Vanuatu

This report is produced by SPC's Strategy, Performance and Learning (SPL) team for SPC member countries and our development partners. Please contact SPL at spc@spc.int for information or feedback on this report.
