Project Title: **Consultancy – Studying the Status of Organic Agriculture in Palau**

A. Project Description

The Building Prosperity for Women Producers, Processors and Women Owned Businesses through the Organic Value Chains (BPWP) project supports the economic empowerment of women in the Republic of Palau, Republic of the Marshall Islands, Federated States of Micronesia (FSM), and Kiribati by developing value chains that will directly benefit women as the producers and suppliers of raw materials, value adders/processors, and/or business owners.

The 4 years' project is supported by the Australian Government and implemented by Pacific Organic & Ethical Trade Community (POETCom) of the Land Resources Division of the Pacific Community (SPC). The project works with the Ministry of Natural Resources and Commerce and the Marshall Islands Organic Farmers Association (MIOFA) in Marshall Islands.

The project will work with individuals, families, producers and vendors and with organic governance structures to promote gender equality and achieve the desired end of investment outcomes. The overall goal of the project is that women will have access to sustainable livelihoods through participation in organic value chains.

The four expected end of investment outcomes are:
