

REQUEST FOR PROPOSAL (RFP)

FOR GOODS

Project Title:	Managing Water Scarcity through Strengthened Water Resources Management
Nature of the goods	Supply of 3 Water Tank (200k L) to Niue
Location:	Niue
Date of issue:	27/11/2024
Closing Date:	7/01/2025
SPC Reference:	RFP24-7379

Part 1: INTRODUCTION

1.1 About the Pacific Community (SPC)

The Pacific Community (SPC) is the principal scientific and technical organisation of the Pacific region, established by treaty in 1947 with the signing of the Agreement Establishing the South Pacific Commission (the Canberra Agreement).

SPC has our headquarters in Noumea, New Caledonia and has regional offices in Fiji, the Federated States of Micronesia and Vanuatu, as well as an office in France. SPC works across the Pacific and has staff in nearly all of our Pacific Island Country and Territory members.

SPC works for the well-being of Pacific people through the effective and innovative application of science and knowledge and is guided by a deep understanding of Pacific Island contexts and cultures. Our unique organisation covers more than 20 sectors and is renowned for knowledge and innovation in such areas as fisheries science, public health surveillance, geoscience and conservation of plant genetic resources for food security.

For more information about SPC and the work that we do, please visit our website: <https://www.spc.int/>.

1.2 SPC's procurement activities

SPC's procurement activities are guided by the principles of high ethical standards, value for money, open competition and social and environmental responsibility and are carried out under our Procurement Policy.

SPC's *Procurement Policy* provides the framework for ensuring that SPC obtains the best value for its purchases, in terms of both cost and quality; demonstrates financial probity and accountability to its members and development partners; manages and prevents the potential for conflicts of interest; reduces its environmental impact and manages any other risks.

At SPC, all procurement follows the same main steps: planning; statement of needs; requisition; solicitation; evaluation; award; receipt; and payment. Different procedures apply depending on the value of the goods, services and works to be procured.

For further information or enquiries about SPC's procurement activities, please visit the procurement pages on our website: <https://www.spc.int/procurement> or email: procurement@spc.int.

1.3 SPC's Request for Proposal (RFP) Process

At SPC, procurement valued at more than EUR 45,000 must be advertised through a Request for Proposal (RFP) with any bids received evaluated by SPC's Procurement Committee to determine the offer that provides the best value for money.

This RFP sets out SPC's requirements and it asks you, as a bidder, to respond in writing in a prescribed format with pricing and other required information. The RFP contains detailed instructions and templates to enable you to submit a compliant bid. It sets out the overall timetable; it confirms the evaluation criteria that SPC will use to evaluate proposals; it explains the administrative arrangements for the receipt of the bids; and it sets out how bidders can request further information.

Your participation confirms your acceptance of SPC's conditions of participation in the RFP process.

Part 2: INSTRUCTIONS TO BIDDERS

2.1 Background

SPC invites you to submit a bid to deliver the goods as specified in [Part 3](#).

SPC has advertised this RFP on its website and may send it directly to potential vendors. The same specifications, submission and other solicitation requirements will be provided to all vendors.

SPC has compiled these instructions to guide prospective bidders and to ensure that all bidders are given equal and fair consideration.

Please read the instructions carefully before submitting your bid. For your bid to be considered, you must provide all the prescribed information by the closing date and in the format specified.

2.2 Submission instructions

Your submission must be clear, concise and complete and should only include information that is necessary to respond effectively to this RFP. Please note that you may be marked down or excluded from the procurement exercise if your submission contains any ambiguities or lacks clarity.

Your proposal must include the following documents (annexes of [Part 5](#) of the RFP):

- a) Bidder's Letter of Application (Annex 1);
- b) Conflict of Interest Declaration (Annex 2);
- c) Information about the bidder and Due diligence (Annex 3);
- d) Technical proposal submission form (Annex4);
 - a. Company's valid business licence
 - b. Quality Certificates (ISO, etc.)
 - c. Manufacturer's authorisation of the vendor as a sales agent
- e) Financial proposal submission form (Annex 5).

Your proposal must be submitted in **two separate emails**.

You must submit your **Technical proposal** (Annexes 1 to 4 and all their supporting documents) in English as an attachment to one email. No financial information may appear in the technical proposal.

You must submit your **Financial proposal** (Annex 5) in a separate email. All prices in the proposal must be presented in NZD. Your Financial proposal is to be password protected. SPC will request the password in the event that it is required.

Both emails are to be sent to procurement@spc.int with the subject line of your email as: **Submission RFP24-7379**.

Your proposal must be received no later than **7/01/2025** by **11.59pm FJ Time**. Only one bid per bidder is permitted.

SPC will send a formal acknowledgement to each proposal received before the deadline.

SPC reserves the right to exclude from consideration any proposal not received by the deadline, with incomplete information or in incorrect form.

2.3 Clarifications

You may submit questions or seek clarifications on any issue relating to this RFP. The questions are to be submitted in writing to procurement@spc.int with the subject line: **Clarification RFP24-7379**. The deadline for submission of clarifications is **15/12/2024** by **11.59PM FJ Time**.

Details will be kept of any communications between SPC and bidders. This assists SPC to ensure transparency of the procurement process. While SPC prefers written communication in the RFP process, at any point where there is phone call or other conversation, SPC will keep a record or a file note of the exchange with prospective bidders.

2.4 Evaluation

Validity

Each proposal will be assessed for compliance with the submission requirements by the Bids Opening Committee. At this stage, basic due diligence will also be undertaken.

To assist in the examination, evaluation and comparison of proposals, SPC may ask the bidder for clarification of its proposal or additional information. The request for clarification will be in writing.

Technical

All valid proposals will be assessed against the technical evaluation criteria set out in Part 4. The criteria are provided with weighted scores according to the relative importance of each. SPC will not change the evaluation criteria set out in the RFP at any stage of the procurement process. Any changes in the evaluation criteria will result in the RFP process being re-issued.

Bidders are expected to familiarise themselves with local conditions and take these into account in preparing their proposal. Where minimum qualifications are set as specific evaluation criteria (which may include educational qualification, professional accreditation or certification, licensing, experience and expertise), proposals submitted must necessarily meet these criteria.

Financial

Any bids that pass the minimum technical evaluation requirements will pass onto financial evaluation.

During the financial evaluation, if there is a discrepancy between the unit price and the total price, the lower price shall prevail. If there is a discrepancy between words and figures the amount in words will prevail.

The total cost of the proposal must be submitted exclusive of taxes in accordance with the applicable legislation, and is not subject to revision.

2.5 Contract award

SPC may award the contract once the Procurement Committee has determined that a bidder has met the prescribed requirements and the bidder's proposal has been determined to be the most responsive to the RFP documents, provide the best value for money and best serve the interests of SPC.

SPC's [General Terms and Conditions of Contract](#) will apply to any contracts awarded under this RFP, unless otherwise agreed. Any requested changes to the General Terms and Conditions of Contract must be foreshadowed in the submission. In the absence of requests for changes, the General Conditions of Contract and the terms of the PSA contract shall be deemed to be known, understood, and accepted by the bidder. A sample Contract for Supply of Goods is attached to this RFP.

The award of the contract will be made by contract signed and dated by both parties.

2.6 Key dates

Please see the proposed procurement timetable in the table below. This timetable is intended as a guide only

and while SPC does not intend to depart from the timetable, it reserves the right to do so at any stage.

STAGE	DATE
RFP advertised	27/11/2024
Deadline for seeking clarification	15/12/2024
RFP Closing Date	7/01/2025
Award of Contract	14/02/2025
Commencement of Contract	17/02/2025
Conclusion of Contract	31/03/2025

2.7 Legal and compliance

Child and vulnerable adult protection: SPC is committed to the well-being of children and vulnerable adults. All SPC contractors are required to commit to the principles of SPC's Child and Vulnerable Adult Protection Policy ([XI.G Manual of Staff Policies](#)). Breach of this requirement can result in SPC terminating any contract with a successful bidder. Any allegations of potential misconduct in relation to this RFP involving children or vulnerable adults should be sent to complaints@spc.int.

Confidentiality: Unless otherwise agreed by SPC in advance or where the contents of the RFP are already in the public domain when **shared** with the bidder, bidders shall at all times treat the contents of the RFP and any related documents as confidential. SPC will also treat the information it receives from the bidders as confidential.

Conflict of interest: Bidders must take all necessary measures to prevent any situation of conflict of interest. You must notify SPC in writing as soon as possible of any situation that could constitute a conflict of interest during the RFP process. If you have any familial connection with SPC staff, this must be declared, and approval will then be sought for you to engage in the RFP process. Breach of this requirement can result in the exclusion of the bidder from the RFP process or in SPC terminating any contract with a successful bidder.

Cost of preparation of proposals: Under no circumstances will SPC be liable for any proposal submission costs, expenditure, work or effort that you may incur in relation to your provision of a proposal (including if the procurement process is terminated or amended by SPC).

Currency, validity, duties, taxes: Unless specifically otherwise requested, all proposals should be in NZD and must be net of any direct or indirect taxes and duties and shall remain valid for 120 days from the closing date. The successful bidder is bound by their proposal for a further 60 days following notification they are the preferred bidder so that the contract may be awarded. No price variation due to escalation, inflation, fluctuation in exchange rates, or any other market factors shall be accepted at any time during this period.

Eligibility: Bidders are required to disclose to SPC whether they are subject to any sanction or temporary suspension imposed by any international organisation, or whether they are subject to bankruptcy proceedings. You may not be bankrupt or suspended, debarred, or otherwise identified as ineligible by any international organisation. Failure to disclose such information may result in debarment and termination of any contract issued to the bidder by SPC.

Fraud and corruption: SPC has zero tolerance for fraud and corruption. All contractors have an obligation to report potential fraud and corruption. Breach of this requirement can result in the exclusion of the bidder from the RFP process or in SPC terminating any contract with a successful bidder. Allegations of potential misconduct by an SPC staff member or contractor involving fraud or corruption can be sent to complaints@spc.int.

Good faith: The information in this RFP is provided by SPC in good faith. No representation, warranty,

assurance or undertaking (express or implied) is or will be made, and no responsibility or liability will be accepted by SPC in relation to the adequacy, accuracy, completeness or reasonableness of this RFP or any information provided by SPC in relation to this RFP.

Modifications: Any clarifications, corrections or modifications will be published on the SPC website prior to deadline. In the event a bidder has submitted a bid before the clarification, correction or modification, the bidder will be informed and may modify the bid. The modified bid will still need to be received before the deadline.

No offer of contract or invitation to contract: This RFP is not an offer to contract or an invitation by SPC to enter into a contract with you.

Privacy: The bidder is to comply with the requirements of applicable legislation and regulatory requirements in force for the use of personal data that is disclosed for the purposes of this RFP. SPC will handle any personal information it receives under the RFP in line with its [Privacy Policy](#), and the [Guidelines for handling personal information of bidders and grantees](#).

Right to amend, seek clarity, withdraw, not award: SPC reserves the right to: (1) amend, add to or withdraw all or any part of this RFP at any time, or to re-invite bids on the same or any alternative basis; (2) seek clarification or documents in respect of any bidder's submission; (3) choose not to award a contract as a result of this RFP; (4) make whatever changes it sees fit to the timetable, structure or content of the procurement process, depending on approvals processes or for any other reason. Please note that while SPC will not change the evaluation criteria set out in the RFP without the RFP process being re-issued, SPC does reserve the right at the time of award of contract to vary the quantity of services and goods specified in the RFP and to accept or reject any proposal at any time prior to award of the contract without incurring any liability to the affected bidder or any obligation to inform the affected bidder/s of the grounds for SPC's action.

Right to disqualify: SPC reserves the right to disqualify: (1) any bidder that does not submit a proposal in accordance with the instructions in this RFP; (2) any bidder that misrepresents information to SPC; (3) any bidder that directly or indirectly canvasses any SPC employee concerning the award of a contract.

Use of material: Bidders shall not use the contents of the RFP or any related material for any purpose other than for the purpose of considering submitting, or submitting, a bid to SPC.

Warranty, representation, assurance, undertaking: The bidder acknowledges and agrees that no person has any authority to give any warranty, representation, assurance or undertaking on behalf of SPC in connection with any contract which may (or may not) follow on from this RFP process.

2.8 Complaints process

Bidders that consider they were not treated fairly during any SPC procurement process may lodge a protest. The protest should be addressed to complaints@spc.int. The bidder must provide the following information: (1) full contact details; (2) details of the relevant procurement; (3) reasons for the protest, including how the alleged behaviour negatively impacted the bidder; (4) copies of any documents supporting grounds for protest; (5) the relief that is sought.

Part 3: Specification of Goods

A. Background/context

In 2020 SPC entered into a Grant Funding Arrangement with the New Zealand Ministry of Foreign Affairs and Trade (MFAT) to deliver the Managing Water Scarcity through Strengthened Water Resources Management Project, referred to as the 'Water Scarcity' project.

The Water Scarcity project aims to provide support to water scarce communities across the Pacific to actively manage resources to improve resilience, in order that:

- Communities have the infrastructure and capability required to access, collect, and store water.
- Communities understand, protect, and maintain water resources and infrastructure; and
- Communities are sustainably using water resources and managing risk.

Initially projects were undertaken in the five atoll nations of the Cook Islands, Kiribati, the Marshall Islands, Tokelau, and Tuvalu and has recently been expanded to include the non-atoll countries of Nauru, Tonga and Niue.

The project has identified a suite of practical measures and tools aimed to strengthen local capacity to anticipate, prepare for and respond to the impacts of water security. The project is significant to Niue in scaling up and refocusing of the activities to manage water resources and increasing climate change adaptation measures in specific sectors. Niue like many island countries is experiencing sea level rises, rising temperatures and prolonged drought periods among others. These impacts exacerbate the vulnerability of local communities' health and water security. The Government of Niue has selected the water sector as one of their focus areas under the Niue National Strategic Plan (<https://policy.asiapacificenergy.org/sites/default/files/Niue%20National%20Strategic%20Plan.pdf> NNSP 2016-2026).

The overall objective of the project is to reduce vulnerability in the water sector through increased water storage capacity by installation and repair of new water reservoirs, rainwater and groundwater harvesting system repairs and improved maintenance practices for vulnerable households on Niue. The Niue Department of Public Utilities has recently identified further repair and maintenance works that are urgently needed in communities and households. This RFQ will enable the procurement of these materials and equipment's.

Niue's' public water supply system is sourced solely from groundwater by submersible bore pumps. Water is pumped from the production bores to storage reservoirs where it is reticulated to consumers by way of gravity or pressure booster pumps.

There are 14 distinct villages on Niue and each has their own water supply system with storage reservoirs located within the villages boundaries. Alofi, the main township has 4 main storage reservoirs. Some of the existing reservoirs are leaking badly and needs to be replaced. Wherever required, the capacity of the replacement reservoirs will be augmented to cater for future growth.

Most of the 20 existing village water supply reservoirs located around the island are Southern Cross steel marviplated reservoirs. Timber, concrete and rubber bladder reservoirs have been used in the past to varying degrees of success. The steel marviplated reservoirs have proven to be fit for purpose except for a number of reservoirs which have not been installed properly and has developed unacceptable leakages.

The Government of Niue (GON) proposes to replace reservoirs in the villages of Liku, Lakepa and Tuapa.

B. Functional Specification

Supply of 3 x 200k L Water Tanks to act as water storage reservoirs to the Island of Niue.

C. Design Specification

SITE 1: Liku supply system

- Existing reservoir capacity and accessories: Southern Cross marviplated tank 80kl with NO internal rubber bladder (marviplated base). Conical roof structure, no level indicator, access ladder and one circular unlockable access manhole. Filled by one production bore via a 65/50mm rising main and leaking badly (40+ years old). Contains electronic float cut off for booster pump and has a Bermad float level control valve plumbed to the inlet line from the bore.
- Proposed replacement reservoir capacity and accessories: one tank arrangement with total volume 200KL. Replacement reservoirs are to have conical roofs, access ladders with safety cages, square lockable manholes and level indicators.
- Existing connections: The existing tank has four supply outlets; one 80mm and three 50mm diameter flanged outlets. There is also a 50mm flanged drain outlet plug at the bottom of the tank. One connection is plumbed to a booster pumping system which supplies the village reticulation system.
- Proposed connections: Maintain all existing outlet and drain connections.
- Proposed replacement tank outlets to be cut-out on site (to align to existing pipework), sealed water-tight, and outfitted with resilient seated gate valves. Allow for firefighting extraction outlet.

SITE 2: Lakepa supply system

- Existing reservoir capacity and accessories: Southern Cross marviplated tank 80kl with NO internal rubber bladder (complete marviplated base). Conical roof structure, no level indicator, access ladder and one circular unlockable access manhole. Filled by one production bore via a 65/50mm rising main and leaking badly (40+ years old). Contains electronic float cut off for booster pump and has a Bermad float level control valve plumbed to the inlet line from the bore.
- Proposed replacement reservoir capacity and accessories: one tank arrangement with total volume 200KL. Replacement reservoirs are to have conical roofs, access ladders with safety cages, square lockable manholes and level indicators.
- Existing connections: The existing tank has four supply outlets; one 80mm and three 50mm diameter flanged outlets. There is also a 50mm flanged drain outlet plug at the bottom of the tank. One connection is plumbed to a booster pumping system which supplies the village reticulation system
- Proposed connections: Maintain all existing outlet and drain connections.
- Proposed replacement tank outlets to be cut-out on site (to align to existing pipework), sealed water-tight, and outfitted with resilient seated gate valves. Allow for firefighting extraction outlet.

SITE 3: Tuapa water supply system

- Existing reservoir capacity and accessories: Southern Cross steel galvanised tank 195kl with NO internal rubber bladder (complete marviplated base). Conical roof structure, access ladder, no level indicator and one square unlockable access manhole. Over 40 years old, rusting and leaking. Filled by a single production bore via a 65/50mm rising main with Bermad float level control valve plumbed to the inlet line from the bore.
- Proposed replacement reservoir capacity and accessories: one tank arrangement with total volume 200KL. Replacement reservoir to have conical roofs, access ladders with safety cages, square lockable manholes and level indicators.
- Existing connections: The existing tank has four supply outlets; one 80mm and three 50mm diameter flanged outlets. There is also a 50mm flanged drain outlet plug at the bottom of the tank. In the future one connection will be plumbed to a booster pumping system to supply a new development area.
- Proposed connections: Maintain existing outlet and drain connections. Proposed replacement tank outlets to be cut-out on site (to align to existing pipework), sealed water-tight, and outfitted with resilient seated gate valves. Allow for firefighting extraction outlet.

D. Technical specification

The proposed replacement reservoir capacities nominated in Section 2.0 above is summarized as follows;

Site Number	Proposed capacity for replacement reservoir/s	Possible alternate reservoir set up
SITE 1	1 tank @ 200kl	Connection to existing 80kl tank for cleaning operations
SITE 2	1 tank @ 200kl	Connection to existing 80kl tank for cleaning operations
SITE 3	1 tank @ 200kl	Connection to existing 195kl tank for two simultaneous tank operations

The specified replacement reservoir capacities are not based on standard manufactured capacities. However, the GON will consider tank capacities as close as possible to the proposed capacities in Section 2: Site Information and the specified summary table in Section 3: Specifications, above.

The GON will consider tanks manufactured of materials other than steel marviplate. However, steel marviplate have proven to be a robust tank material suited to conditions on Niue.

As required under the “Request for Tender” terms and conditions, the supplier must confirm in writing or certification that the following specifications have been complied with:

- Reservoirs shall comply with WHO (World Health Organisation), Australian and New Zealand Drinking Water Guidelines, whichever is the more stringent, and their associated Standards.
- Reservoir construction materials shall comply with the appropriate Australian and New Zealand Standards
- Reservoirs shall be a Certified Product and Quality Endorsed under the appropriate Australian and New Zealand Standards
- The reservoir accessories: roof panels, roof support structure, access manholes, level indicators, connections and fixings, outlet valves, associated parts and access ladders, shall comply with appropriate Quality Control manufacturing practices and Operation, Health and Safety requirements so that they are suitable and fit for purpose to Niue weather and working conditions. Niue is located in a cyclone zone and exposed to humid and salty air conditions.

- Reservoirs shall require little or no maintenance, light and easy to transport and construct, prevent and inhibit rust, will not taint contents, resist ultra-violet damage, prevents algae growth, manufactured of environmentally friendly material, non-toxic and non-leaching and watertight.
- Reservoirs shall have clear and concise installation and maintenance procedures and/or manuals

E. Delivery Requirements

As per the above unless otherwise mutually agreed between the supplier and SPC in writing, the items outlined shall be delivered by February 2025 with a total estimated shipping time of 30 days.

The supplier will be responsible for delivering all items to **Niue Port**. SPC will facilitate customs clearance and pay associated destination charges. Delivery costs are to include shipping, export charges, insurance, and other associated freight expenses to deliver to Niue port. Items are to be packed and clearly labelled with contents. The supplier will provide all necessary transport documents (bill of lading, packing list, insurance certificate, etc.) as soon as they are available.

F. Warranty Requirements (when applicable)

Standard manufacturer's warranty information must be included in the quote.

G. Reporting Arrangements

The appointed bidder will work closely and under the direct supervision of the SPC's Managing Water Scarcity through Strengthened Water Resources Management Project Manager and will seek approval of payments, output from the Program Coordinator before submission for final approval from SPC.

Over the course of the implementation of contract, periodical joint monitoring will be conducted by the Contractor, Niue Department of Utilities and the relevant SPC personnel.

H. Scope of Bid Price and Schedule of Payments

- The rates quoted by the bidder:
 - Should represent best value for money.
 - Should be valid and remain fixed for a period of one year from the date of award.
- Bidder is requested to specify the preferred schedule of payments and terms acceptable, 12 noting that generally, SPC will not enter into arrangements requiring a 100% advance payment.
- Terms of payment shall be in accordance with the provisions of Article 10 of the SPC General Conditions
- Payment for supply and delivery of goods will typically be based on below milestones:

Part 4: PROPOSAL EVALUATION MATRIX

4.1 Evaluation criteria & Score Weight

A two-stage procedure will be utilised to evaluate the proposals, with evaluation of the **Technical proposal** being completed prior to any **Financial proposal** being opened and compared.

The competencies which will be evaluated are detailed in [Part 3](#).

The evaluation matrix below also reflects the obtainable score specified for each evaluation criterion (technical requirement) which indicates the relative significance or weight of the items in the overall evaluation process.

The technical component, which has a total possible value of 700 points, will be evaluated using the following criteria.

Evaluation criteria	Score Weight (%)	Points obtainable
Mandatory requirements		
E-mail 1: Annex 1 – Bidders letter of application signed. Annex 2 – Completed and signed conflict of interest declaration Annex 3 – Information about the bidder and due diligence Annex 4 – technical submission including: <ul style="list-style-type: none"> • Company’s valid business licence • Quality Certificates (ISO, etc.) • Manufacturer’s authorisation of the vendor as a sales agent E-mail 2: Annex 5 – financial submission (password protected)		Bidders will be disqualified if any of the requirements are not met
Technical requirements		
Experience		
Demonstrated Evidence of at least 5 years practical experience in supply of similar item	20%	140
Product		
Quality product(s) proposed, meeting specifications and suitable for Niue’s hot, humid and corrosive environment. Please include examples, applicable warranties, brochures and associated weblinks / documentation.	50%	350
Warranty		
Warranty period	15%	105
Delivery		
Demonstrated experience with supply, & delivery of tanks within the Pacific Region and specifically to Niue.	10%	70

Time	5%	35
Capability to deliver within the desired timeframe		
Total Score	100%	700
Qualification score	70%	490

4.2 Financial evaluation

The financial component of the proposal will be scored on the basis of overall costs for the delivery of the goods and financial incentives and benefits provided to SPC. The lowest financial proposal will be awarded maximum 300 points and other financial offers and incentives will be awarded points as per the formula below:

$$\text{Financial Proposal score} = (\text{Lowest Price} / \text{Price under consideration}) \times 300$$

Part 5: PROPOSAL SUBMISSION FORMS

Annex 1: BIDDER'S LETTER OF APPLICATION

Dear Sir /Madam:

Having examined the Solicitation Documents, the receipt of which is hereby duly acknowledged, we the undersigned, offer to supply the required goods for the sum as may be ascertained in accordance with the Financial Proposal attached herewith and made part of this proposal.

We acknowledge that:

- SPC may exercise any of its rights set out in the Request for Proposal documents, at any time;
- The statements, opinions, projections, forecasts or other information contained in the Request for Proposal documents may change;
- The Request for Proposal documents are a summary only of SPC's requirements and is not intended to be a comprehensive description of them;
- Neither the lodgement of the Request for Proposal documents nor the acceptance of any tender nor any agreement made subsequent to the Request for Proposal documents will imply any representation from or on behalf of SPC that there has been no material change since the date of the Request for Proposal documents, or since the date as at which any information contained in the Request for Proposal documents is stated to be applicable;
- Excepted as required by law and only to the extent so required, neither SPC, nor its respective officers, employees, advisers or agents will in any way be liable to any person or body for any loss, damage, cost or expense of any nature arising in any way out of or in connection with any representations, opinions, projections, forecasts or other statements, actual or implied, contained in or omitted from the Request for Proposal documents.

We undertake, if our proposal is accepted, to commence and complete delivery of all items in the contract within the time frame stipulated.

We understand that you are not bound to accept any proposal you may receive and that a binding contract would result only after final negotiations are concluded on the basis of the Technical and Financial Components proposed.

Annex 2: CONFLICT OF INTEREST DECLARATION

INSTRUCTIONS TO BIDDERS

What is a conflict of interest?

A conflict of interest may arise from economic or commercial interests, political, trade union or national affinities, family, cultural or sentimental ties, or **any other type of relationship or common interest between the bidder and any person connected with the contracting authority** (SPC staff member, consultant or any other expert or collaborator mandated by SPC).

Always declare a conflict

The existence of a potential or apparent conflict of interest does not necessarily prevent the bidder concerned from taking part in a tender process. **However, the declaration of the existence of such a conflict by the persons concerned is essential and allows SPC to take appropriate measures to mitigate it and prevent the associated risks.**

Bidders are therefore invited to declare any situation, fact or link which, to their knowledge, could generate a real, potential or apparent conflict of interest.

Declaration at any time

Conflicts of interest may arise at any time during the procurement process or the implementation of a contract (e.g. new partner in the project) or as a result of a change in personal life (e.g. marriage, inheritance, financial transaction, creation of a company). If such a relationship is found and could be perceived by a reasonable person as likely to influence a decision, a declaration of the situation is necessary. In case of doubt, a conflict situation must be declared.

Declaration for any person involved

A declaration must be completed for each person involved in the tender (principal representative of the bidder, possible subcontractors, consultant, etc.)

Failure

Failing to declare a potential conflict of interest may result in the bidder being refused a contract or placed on SPC's list of non-responsible suppliers.

DECLARATION

I, the undersigned, *[name of the representative of the Bidder]*, acting in the name and on behalf of the company *[name of the company]*, declare that:

<input type="checkbox"/>	To my knowledge, I am not in a conflict-of-interest situation
<input type="checkbox"/>	There is a potential conflict of interest with regard to my <i>[Choose an item]</i> . relationship with <i>[name of the person concerned]</i> in his or her capacity as <i>position/role/personal or family link with the person concerned</i>], although, to the best of my knowledge, this person is not directly or indirectly involved in any stage of the procurement process
<input type="checkbox"/>	I may be in a conflict of interest with regard to my <i>[Choose an item]</i> relationship with <i>[name of the person concerned]</i> in his or her capacity as <i>position/role/personal or family link with the person concerned</i>], as this person is, to the best of my knowledge, directly or indirectly linked to the procurement process
<input type="checkbox"/>	To my knowledge, there is another situation that could potentially constitute a conflict of interest: <i>[Describe the situation that may constitute a conflict of interest]</i>

In addition, I undertake to:

- declare, without delay, to SPC any situation that constitutes a potential conflict of interest or is likely to lead to a conflict-of-interest;
- not to grant, seek, obtain or accept any advantage, whether financial or in kind, to or from any person where such advantage constitutes an unfair practice or an attempt at fraud or corruption, directly or indirectly, or constitutes a gratuity or reward related to the award of the contract;
- to provide accurate, truthful and complete information to SPC in connection with this procurement process.

I acknowledge that I and/or my company and/or my business partners who are jointly and severally bidding on the RFP *[SPC Reference]* may be subject to sanctions such as being placed on SPC's list of non-responsible vendors, if it is established that false statements have been made or false information has been provided.

For the Bidder: *[insert name of the company]*

Signature:

Name of the representative: *[insert name of the representative]*

Capability to deliver within the desired timeframe	<i>[Bidder's answer]</i>

For the Bidder: <i>[insert name of the company]</i>
Signature:
Name of the representative: <i>[insert name of the representative]</i>
Title: <i>[insert Title of the representative]</i>
Date: <i>[Click or tap to enter a date]</i>

Annex 5: FINANCIAL PROPOSAL SUBMISSION FORM

INSTRUCTIONS TO BIDDERS

In their financial proposal, bidders should detail as much as possible the price requested in response to the technical specifications.

Wherever possible, the unit prices of the individual goods should be indicated, followed by the total amount (including any additional services and any other costs associated with the delivery of the goods).

Good detail in their financial proposal helps bidders to give clarity and transparency to their proposal and makes it easier for SPC to score the proposals received.

The contract to be concluded with the selected bidder must mention all the costs incurred for the execution of the assignment entrusted to him (including insurance, packaging, delivery costs, unloading, etc., where applicable). No additional costs can be claimed from SPC after the contract has been signed.

Bidders must also mention any special conditions relating to the amount of their proposal or the terms of payment.

The financial proposal must be submitted **exclusive of taxes** in accordance with the applicable legislation. However, the final amount of the awarded contract may be paid to the successful bidder inclusive or exclusive of taxes, depending on the tax exemptions enjoyed by SPC as an intergovernmental organisation in its member countries and territories.

The following form is given as an indication, the bidder may submit its financial proposal to SPC in another format, provided that it complies with the instructions detailed in this RFP/RFQ and in particular:

BIDDER'S FINANCIAL PROPOSAL – GOODS

<i>Water Tanks</i>			
Goods description	Lump sum Price NZD	Total quantity	Total Amount NZD
200k L water tanks	<i>[unit price]</i>	3	<i>[total amount]</i>
Total Package 1			<i>[Total 1]</i>

<i>Other costs</i>			
Item description	Unit Price NZD	Total quantity	Total Amount NZD
Shipping to Niue	<i>[unit price]</i>	1	<i>[total amount]</i>
Total Other costs			<i>[Total]</i>

Total amount	<i>[total amount for 1+2+3]</i>
Total other costs	<i>[total other costs]</i>
GRAND TOTAL	

No payment will be made for items which have not been priced. Such items are deemed to be covered by the financial offer.

Bidders will be deemed to have satisfied themselves, before submitting their proposal and to its correctness and completeness, taking into account of all that is required for the full and proper performance of the contract and to have included all costs in their rates and prices.
